Editorial

In exercise of the power conferred by section 20A of the Securities and Exchange Ordinance, 1969 (Ordinance No. of XVII of 1969), the Bangladesh Securities and Exchange Commission has directed both exchanges as follows: (a) Opening price of any listed security shall be set at the average of the closing price of immediately preceding 5 (five) trading days of 19 March 2020, and this average price calculated for each security shall be considered as the floor price and the lowest limit of the circuit breaker. (b) Upper limit of the circuit breaker and other conditions of the Order No. BSEC/CMRRCD/2001-07/229 dated 14 November 2019 shall remain unchanged. This order had effect from 19 March 2020 and shall remain in force until further order. This step resulted positivity in the market as the CSE All Share Price Index (CASPI) stood 47% higher on March 22 than that of the preceding day. Prices of 44 securities were gained out of 205 securities traded. The price of 161 securities remained unchanged. Gaining of CASPI continued till immediate before 'General Holidays' announced by the government due to COVID-19 pandemic. 0.75% rise of the said index was recorded on March 23. The total turnover value at CSE on March 24 stood 819.10 million Taka. The market share on that day was 36.99%. In spite of declining market share to 24.35% the total turnover value stood 1120.60 million Taka on the last trading day of March.

CSE perceives that the announced stimulus package for the overall economy by the honorable Prime Minister on 5th of April 2020 is exactly a timely declaration and a bold step taken by her at a time. Under the Social Safety program reaching the low-privileged people with only 10 Taka for each Kilogram of rice is an offer to really to be appreciated and realistic and a demand of time as well, since at this moment of great calamity these poor people cannot work for their food and the condition seems to lengthen. Moreover, in case of industries, for large scale industries thirty-thousand crore taka program has been declared at a rate of 4.50% and program has been declared for SMEs at 4.00%. As a result, the scheduled banks are going to be advantageous; remaining 9.00% interest burden is to be shared by the Government. Thus we hope the banks have opportunity to be benefited. EDF has been raised to 5 billion from 3.5 billion which will benefit the exporters, and for pre-shipping there is a scheme of Taka 5,000 crore at a rate of 7.00% which is really a great initiative. We hope the capital market is going to observe the benefits after starting its operations from implementation of this package.

Unlike other sectors, different stake holders of Bangladesh Stock Market have been severely affected this year. CSE is further aware of the fact that, the downtrend of the stock market has been ongoing since 2018 and Covid-19 is supplemented and escalated the sufferings of the small/institutional investors and different stakeholders of the Bangladesh Stock Market.

CSE has proposed a stimulus package in total Tk. 1050 Cr to the Finance Ministry and BSEC to consider for the CSE small investors and brokers at the time of severe crisis caused by pandemic and lockdown in the country: 1. Subsidize interest on Margin Loan: Tk.400 cr. 2. Subsidize broker's office expenses: Tk. 80 cr. 3. Incentive of Corporate Tax of CSE: Tk. 20 cr. 4. Waiver of BO Account Renew Fee: Tk. 50 cr. and 5. Special Loan only for CSE Brokers: Tk.500 cr.

N.B. CSE's quarterly journal PORTFOLIO Jan-Mar '20 issue was not published in April due to 'General Holidays' announced by the government. It is published now in June containing the first quarter's market statistics and exchange news for five months (Jan-May).

Public Private cooperation is the need of the hour

Asif Ibrahim

We are going through an unprecedented heath and a resulting economic crisis in Bangladesh as the global corona pandemic has rattled most of the countries in the world.

In this moment of grave crisis our first and foremost priority is to ensure health and safety of the citizens. Following other countries of the world, our government has also taken measures by giving certain directives, announcing holidays, encouraging social distancing in an effort to flatten the curve.

The frontline healthcare workers must have the necessary personal protective equipment (PPE)s to handle all the potential patients who show symptoms or are already infected. The private sector of Bangladesh has also extended their support in this cause. The FBCCI President has announced that they are getting their first consignment of PP gears soon with the support of their board of directors and the extended network of private sector chambers and associations. Some of the factories in our ready-made garments sector have also risen to the occasion, they have designed on their own international standard hazmat dresses and a collective effort is underway to produce and deliver to different hospitals and clinics in the country. Both the bourses of the country Dhaka Stock Exchange and Chittagong Stock Exchange will also use their CSR fund to help the neediest populace. Both the bourses of the country Dhaka Stock Exchange and Chittagong Stock Exchange will also use their CSR fund

to help the neediest populace. I am very encouraged to see Beximco Group donating US\$ 1.8 million for PPE, I hope following their example many other corporate houses will come forward.

In addition to this the banking sector in the country can play a crucial role. The banks have well-structured CSR programs. Through these programs they can assist the government to upgrade the rural health facilities. They can also in coordination with urban and rural level development agencies help the most marginalized population, for example the daily wage earners whose livelihood will be most affected if this crisis is prolonged.

Bangladesh Bank have already taken an expansionary monetary policy by reducing the reporate by 0.25 percent, reduced the CRR significantly and instructed banks not to classify any loans until end June.

Ready-made garments sector is the largest industrial sector of this country. By the time of writing this report 978 factories reported 831.78 million pieces of orders cancelled whose worth is \$2.69 billion. Close to 2 million workers are affected because of these cancellations. Other export sectors like leather and footwear, pharmaceuticals, export backward linkage industries, IT and ICT sector all have faced cancellation of orders.

We are very thankful to the Honorable Prime Minister Sheikh Hasina MP for announcing the Tk 5,000 Crore stimulus package for the export sector of Bangladesh. This announcement gives us relief. Financing from international donor agencies and development partners is also an avenue which can be explored by the government on an urgent basis. IFC World Bank Group, ADB, International Monetary Fund, GIZ and others can be accessed for additional funds to tackle the health and economic risks.

Emergency situations call for innovative ideas. Fiscal support to the Small and Medium size industries is crucial right now and a special "Bongobondhu Bangladesh Bond" can be issued for this purpose.

We, the entire private sector needs to stand by the government in this moment of national crisis. Let us all hope we can come out winner in our fight against this pandemic.

Stock Market Scenario in Bangladesh: Current Scenario and Potential Measures

Professor Dr. Mohammad Saleh Jahur

1.0 Introduction

Stock market in the world is sensitive to both relevant and irrelevant information/events depending on degree of stock market efficiency in a country. It is known fact that no market in the world is cent percent efficient. The literatures on pragmatic research across the world disclose that there is an equilibrium degree of inefficiency in each and every stock market in the world. An efficient market is characterized by features: large number of buyers & sellers, availability of securities for investment, price sensitivity, low transaction costs, establishment of equilibrium price on market forces-demand for and supply of securities, market competition, equilibrium return for risk perceived, and perfect market. No one can say that these features are commonly found in any market. As a result, stock market performance and its sensitivity to the arrival of new information or happening of any events relevant or irrelevant does significantly vary from market to market and country to country.

Recently stock market in the world has been subject matter of abnormal change across universe. This abnormal change in stock market can be attributed to many causes. These causes are trade war between developed countries through tough sanction and imposition of exorbitant rate of tariffs, middle east war and human movement, price war over oil supply and increased market share, inappropriate price and market diplomacy, unlawful capital flight, spill-over effects to other regions, poor investment, contraction of economy, volatility of foreign investment, imbalance trade deficit, unemployment and finally CORONAVIRUS. Stock market regulators, stock exchanges, market participants and stock market giants are doing everything possible to prevent stock market from the stock market crash. The market is experiencing the changes like closure of trade for the time being for arresting price fall, resumption of trading with new provisions, fixation of price-opening & closing price on average price, etc. All these could not prevent stock market from price fall and decline in stock index leading to bear market.

2.1 Current Scenario of World Stock Market

The 2020 stock market crash is a global stock market crash that began on 20 February 2020 during the 2019–20 coronavirus pandemic. The Dow Jones Industrial Average, S&P 500 Index, and the NASDAQ-100 all fell into a correction on 27 February during one of the worst trading weeks since the financial crisis of 2007–08. Markets over the following week (2–6 March) became extremely volatile, with swings of 3% or more being made per daily session (except for 6 March. On 9 March, all three Wall Street indices fell more than 7% and most global markets reported severe contractions, mainly in response to the 2019–20 coronavirus pandemic and a described Russia–Saudi Arabia oil price war. This became colloquially known as Black Monday, and at the time was the worst drop since the Great Recession in 2008.

Three days after Black Monday there was another drop, Black Thursday, where stocks across Europe and North America fell more than 9%. Wall Street experienced its largest single-day percentage drop since Black Monday in 1987, and the FTSE MIB of the Borsa Italiana fell nearly 17%, becoming the worst-hit market during Black Thursday. Despite a temporary rally on 13 March (with markets posting their best day since 2008), all three Wall Street indexes fell more than 12% when markets re-opened on 16 March. ¹At least one benchmark stock market index in all G7 countries and 14 of the G20 countries have been declared to be in bear markets.

Global stock markets posted their steepest falls since the 2008 financial crisis on Monday after a crash in the oil price amplified concerns about the escalating economic cost of the coronavirus outbreak. Almost £125bn was wiped off the value of the FTSE 100 in the fifth-worst day in history for the index of leading UK company shares, as it plummeted by 7.7% to finish the day below 6,000 points, its lowest level since straight after the Brexit vote in 2016. In Italy the Prime Minister, Giuseppe Conte, extended the red zone restrictions in the north to the whole country, banning all public gatherings and preventing movement other than for work and emergencies. Trading on Wall Street was frozen within minutes of the market opening as the system to buy and sell shares failed to keep pace with events. The Dow Jones closed down by more than 2,000 points for the first time ever, a decline of 7.8%.

Stock markets fell across Europe with losses in France, Germany and Spain of about 8%, outstripping the depths of the eurozone sovereign debt crisis. The biggest sell-off came in Italy, with stocks in Milan collapsing by more than 11%. The global stock market correction – of a scale last seen in the weeks after Lehman Brothers' collapse in 2008, which triggered the worst global recession since the Great Depression of the 1930s – comes amid an increasingly bitter standoff between Saudi Arabia and Russia

over oil production cuts as the coronavirus outbreak drags down international demand for crude. On Sunday Russia refused to sanction cuts to production that would have supported the oil price. Saudi Arabia retaliated by pledging to increase production, which sent the oil price crashing on Monday morning with the steepest percentage decline since the onset of the first Gulf War.

The authority of different countries and supranational have adopted different types of fiscal measures and monetary policy measures for preventing stock market from the recent crash. The measures are reduction of interest rate basis points, liberalization of tariff rates, liberalization of trade policies, investment stimulus, bail over policy, reduction in reserve requirement for enhancing market liquidity, etc. Besides, many exchanges of the worlds have also changed rule of trade and strategic game of the stock market for transforming bear market to bull market and correction of prices of securities most judiciously. All these measures are expected to have positive impact on the stock market too.

2.2 Current Stock Market Scenario in Bangladesh

The Bangladesh Stock Market has seen many ups and down throughout its journey from 1952 to 2020. The stock market experienced first biggest market disaster in 1990s and the second biggest shock of recent decade in 2011. After stock market disaster in 1996, the stock took almost 11 years to reach to the normal level of performance in 2007. That is, the market took this long period to bring confidence of investors back through introducing corporate governance, reforming stock market, developing required infrastructure, bringing more security to the market, and facilitating foreign investment in shares and securities. Recently, the market has experienced another biggest drop after reaching the highest peak on both CSCX and DSCX. Although, there were many ups and downs in between; but they were not found as significant as were found in 1996, 2011, and 2019-20.

Table 1 shows a vivid picture of stock market performance on market return of six counties in Asia. It is evident from the perusal of table that stock market in Bangladesh has experienced a negative market return of 17.30% while others have experienced positive market returns This is substantiating the huge drop of stock index of both CSE and DSE due to fall in market prices of most of the listed securities of different sectors of the economy. This scenario has been shown through following figure 1:

Bangladesh stock market has been experiencing a volatile chapter and an unexpected transformation from normal grown market to the bear market. This market has suffered a negative market return, lowest price-earnings ratio, very low earning performance of most listed companies, low capital investment, and low influx of foreign investment in the last nine months. This has caused a negative change in price of shares irrespective of securities and sizes of companies by means of price correction and adjustment. The study has studied CSE general index for the last three months from January o1 to March 24, 2020. During this period, there were 59 working days. The change in index points on CSCX for the said duration has been figured out through following figure 2:

From the perusal of above figure, it has been found that the stock market has experienced a positive change in 23 trading days and a negative change in 36 trading days. The average of negative change is much higher than average of positive change. It is also interesting to note that the trend in negative change last sometime longer than duration of positive trend. The changes have finally led to the bear market. This has posed a question whether stock market in Bangladesh is sustainable or not? Why does stock market in Bangladesh experience a negative market return amongst stock markets in Asia? Although, the Bangladesh Economy is enjoying and accomplishing highest growth in GDP amongst countries of South Asia. In practice, this is found to be contradictory. Stock market analysts have to find reasonable answers to these questions.

3.0 Resultant Effects of Bear Market in Bangladesh

This has enormous implication for all parties to the stock market in Bangladesh. Some important implications of these have been drawn as follows on the basis of current literatures available at home & abroad and opinions of stock market professionals:

- Regulator is required to revisit all the regulations influencing issue of shares & securities, trading of shares and securities, governance of exchanges and listed companies, governance of logistic companies involved in issue and investment, etc.
- > Stock Exchanges have to come forward to revisit its by-laws and modus Operandies applied in stock market operations. Besides, they have look into the effectiveness of regulations of BSEC and by-law of the exchanges as to ensure of governance with regard to management, decision making,

- disclosure of financial information, and socio-economic performance and transparency at all stages of value chain of listed companies, etc.
- Prokers being intermediaries of the stock market have to comply with all regulations of trading, settlement and clearing of transactions. They have play most important role in educating investors & enhancing their investment skills and making them aware of informational environment of the country/universe. Investors cannot be guided in making investment decisions; but investors can be provided with information and skills in making productive investment decisions in the stock market. So, brokers have to raise voice for boosting confidence level of investors.
- Stock Market Machineries include issue manager, bankers/brokers to the issue, underwriters, registrar to the issue, merchant bankers, etc. These parties play a critical role particularly in bringing a new corporate firm to the purview of stock market, pricing IPOs, processing new issues, and inviting existing & new investors to the subscription of new shares & securities. They can also play an important enabling role in setting new regulations & deregulations and easing modus operandies used in execution of trade on the exchange too.
- Investors-Individual and Institutional is the nerve of the stock market. Classic and well educated & skilled investors are the key to sustainable stock market in any country. Investor education program undertaken by BSEC for implementation through direct and indirect approach is found to be the best in the context of Bangladesh. So, all investors irrespective of any kinds and color have be to be aware of the market change and able to make judicious decision in selecting security on relevant factors and making buy, sale or hold decision most appropriately.
- Fourth Party includes carriers of information and third party vehicle like Financial Reporting Council (FRC). This party is relentlessly working for the betterment of the market & society and the judicious & transparent role of the rest of parties to the stock market. The role of this party can restore the confidence of all parties including investors in the stock market. Therefore, Government and government machineries have to play a strategic role in making the role of the fourth party most prolific.

4.0 Reasons for Current Stock Market Crash in Bangladesh

The symptoms of current stock markets in Bangladesh are unexpected variability in number of trades, volume of trade, value of trade, market capital due to unlikely

change in demand for (low demand) and supply of securities (high sales pressure for making profits or withdrawing capital to get rid of unforeseen contingency). The imbalance in market forces corrects/adjusts market price of securities unjustly that leads to the unfair valuation of securities which seems to be characteristic of an inefficient market. The causes of these symptoms or reasons for current stock market crash have been summarized as follows:

a) Lopsided Development of Economy

Stock market being an integral part of the economy should have received better attention of government and government machineries. But it has received attention not at all attractive for investors-local & foreign and investment. The fiscal policy of government and monetary policy of Bangladesh Bank have miserably failed to produce results in terms of investment in private sectors and creation of employment for youth. Besides, market has failed to bring more investors either from local or abroad for investment due to poor fiscal incentives amongst many reasons. However, public investment has been found on the rise and public borrowing also on the rise. As a result, growth in per capita income and GDP is increasing despite poor performance of stock market.

b) Continuous Increase in Non-Performing Assets (NPAs)

Continuous rise in non-performing assets of commercial banks has perplexed both lending/investment capacity and earning performance of commercial banks and financial institutions operating in Bangladesh. On the other hand, corporate businesses are struggling to pay off financial obligations due to contraction of economy. This has caused liquidity crisis in both money and capital market.

c) Excessive Government Borrowing

Poor business performance has caused a decline in revenue collection of Government in the form of income tax, VAT, duties, etc. As a result, Government has borrowed from banks & FIs more than the target for financing revenue deficit. This has caused a liquidity crisis of banks and finally in turn has reduced investment capacity of commercial banks. This has pervasive influence on the liquidity of stock market negatively.

d) Change in Position of Institutional Investors

Mutual Funds and Banks have been found poorly active in trading of shares & securities and investing bulk size for longer periods. Besides, ICB, the largest institutional investors have changed its position by reducing investment

exposures in different companies. This can be another important cause of stock market crash in 2020.

e) Influx of Non-performing Companies

The companies entering into the stock market with new issue have failed to exerting positive influence in the behavior of investors through expected performance in terms of market and financial performance. This is another cause of erosion of investor's confidence.

f) International Trade and Investment Environment

The trade war between developed economies has dramatically changed both trade and investment policy of different countries. This has also changed strategic relationship amongst member countries of OPEC, NATO, European Common Market, ASEAN, etc. This has caused a significant negative or positive impact of foreign trade and investment across countries.

g) Negative Net Foreign Investments

The stock market attracts foreign investment. So, there is an ups and down in foreign investment to an insignificant extent. This is quite bearable for the market. But, there is a sluggish trend in net foreign investment for the last nine months. This has worsened the liquidity of stock market in Bangladesh.

h) Monopolistic Behavior of Syndicate formed by Retail Traders

The distinct feature of Bangladesh Stock market is that retail investors hold major portion of tradable securities as compared to securities held by institutional investors. This has resulted in forming syndicate of retail investors who can move the market in their favor by manipulating both price and trade. As a result, many investors became inactive after losing capital. Besides, this has created a hazard for the regulators in regulating the market. This calls for a balanced distribution and making institutional investors actively involved.

i) Lack of Sound Investment Decision

The very big and important constraint to the healthy stock market in Bangladesh is the paucity of classic, educated and skilled investors. From the different survey, it has been found that most of the investors make investment decision not on appropriate information and outgrowth of research; but on rumors. Over the passage of time, there are many avenues of information & advices and regulators/exchange/brokers are offering free training to the investors. Investors attended training program but did not change their tactics of depending on rumors. Therefore, poor trading knowledge, trading on rumors, manipulative approach, and poor risk management are found to the causes of huge suffering from losses on the part of retail investors. This is also working as a big hurdle to the introduction of new products in the stock market. This calls for undertaking significant and effective awareness program for investors.

j) Lack of Continuous Monitoring of Stock Market on the Part of Investors

Most of the investors in Bangladesh are trader i.e. short term investors. Their investment constitute lion share of investment and their trade volume also constitute a lion share of total trade volume. Both the exchanges offer trade mechanism for trading of shares through circuit breaker except on a day of price sensitive information. Most of the investors don't keep on monitoring the market on a daily basis. As a result, they fail to make decision to stop losses or harvest profit from the market depending on the movement in prices of shares and securities.

k) Poor Governance in Reporting and Financial Performance

BSEC is putting its best to ensure governance at all stages of activities and decisions of listed corporate firms through off site and on-site inspection. Both the exchanges are found active in making listed corporate firms compliant through disclosure and reporting to the stakeholders including exchange. FRC has started working on this most professionally. Still, there is a gap in reporting and financial performance which is substantiated by the disclosed performance and actual practices. This is considered to be a moral hazard on the part of corporate management.

6.0 Potential Measures for Redirecting Stock Market towards Normal Grown Market

Movement in prices of securities within normal range is a common feature of normal stock market. Theoretically price of a stock moves up for three reasons: confidence of investors in corporate firm, increase in earnings, and speculative buy and viceversa. This is an ideal situation of stock market. Virtually stock market in Bangladesh like other developing countries is mostly inefficient. Consequently, regulators and market makers have to take measures on the real life and investors have to be

pragmatic in making investment decisions on real information and outgrowth of research. However, the present paper has suggested following prudent policy and strategic measures on the basis of opinions of professionals published at papers and review of literatures for redirecting the present stock market to normal grown market as follows:

- a) Consistency in Policies: Government should come up with policies which are found consistent across markets and sectors. So, Government should revise its fiscal policy with regard to corporate tax, VAT, and tariff rate so that fresh investment is attracted in the private sectors. Besides, Bangladesh Bank with its objective to boost up private sector investment through current monetary policy is found failure to accomplish. So, it should revise its modus and leave interest rate to be determined on market forces. Otherwise, inconsistency will prevail between and within sectors.
- b) Ensure Influx of Fundamentally Best Company: The terms and conditions set by BSEC for allowing a fresh company to issue share for raising funds are found most accurate. This is in line with standardized procedure of developed economy. Despite this, most of the newly listed companies with all best records have failed to exert positive influence in the confidence level of investors in the real life. So, they are found mostly non-performing. At this situation, the regulator has to think twice over this and board of exchange has to think thrice while offering letter of consent to BSEC. All the efforts are to directed towards ensuring entry of best performing companies in the stock market. Besides, BSEC can promulgate a regulatory measure to take MNCs operating in Bangladesh under the purview of stock market after certain period of commercial operations.
- c) Ensuring Governance at All Stages of corporate Firms: This has been a paradox of the stock market. Most stock market professionals are in deep concern over this despite several efforts of both BSEC and Exchanges. Therefore, there should be an effort on the part of regulators to enhance moral values of corporate management through developing corporate cultures like MNCs. This is required for making stock market sustainable and contributory to the development of economy. Otherwise, stock market would experience bankruptcy of listed corporate firms like garments & textile sectors (non-listed) as we are experiencing.
- d) *Effective Role of Fourth Party:* Fourth Party could be a role player in ensuring governance in financial performance and reporting. The whole stock market in Bangladesh is now observing the key role of this with a great hope of revitalizing stock market from the current scenario.
- e) Keep Continuing Investors Education Program: This program is considered to be the most relevant for developing investment skills of investors and making

them aware of investment and capable of making investment decision on accurate information and outgrowth of research. Interesting to note that Investors cannot be educated and conscious overnight. This is a time consuming process. So, all concerned should work out a pragmatic training plan and workshops for a year for educating investors and enhancing their skills in investment decisions. This would give stock market a sustainable position the days to come.

- f) Environment for Foreign Investment in the Stock Market: Positive trend in foreign investment is found to be confidence building factors of stock market. This, we can ensure if we can motivate fundamentally best company to come in and perform. Besides, listed companies should be compliant besides a very investment environment to prevail.
- g) Demonstrative Program of the Exchanges: Both the exchanges should come out with measures to visualize live trade statistics at important points of big cities in Bangladesh. This measure would introduce the market to more people and motivate them to get involved in the capital formation process of the economy.

7.0 Conclusion

Current stock market scenario will not last for long. Investors should not be panicked. At this moment, investors should not go for selling at bottom rocked price for losing capital. Investors should adopt strategy to identify security to buy so that they can harvest profit from reverse trend in price in the future. The author believes that measures suggested would redirect present bearish stock market trend to normal grown market if they are followed and implemented.

Is Your Portfolio Free from Coronavirus?

Dr. Emon Kalyan Chowdhury

Introduction

The whole world is jolted with the attack of coronavirus. Even few weeks ago, people thought, the virus would destabilize the international supply chains only, which at best would shut factories in China. Though, initially the whole world witnessed the sufferings of china, now the whole world is suffering for the deadly spreading of this virus to Iran, Italy, Saudi Arabia, Japan, South Korea, USA and many other countries and China is gradually overcoming. The coronavirus is going to have a deep and serious impact on the world economy. Policymakers in various countries are worried to find solutions to this unexpected guest. So far, China has successfully tackled the crisis with appropriate formulation of policies. Many transnational, multi-national and domestic companies in the world have shut down their operations, postponed conferences and reduced employee travel fearing the death threats of Coronavirus.

Impact on Stock Market

World famous companies like Microsoft, Google, Apple and Adidas estimate that their profits for this year would be eaten up by the deadly coronavirus. International Monetary Fund (IMF) expects that the global economic growth will be even lower than the year 2008-09 when sub-prime crisis took place. Since major industries like tourism, aviation, oil, consumer goods,

and commodities are seriously jolted, a global recession is just ahead of us. Due to the global meltdown of economy, the stock markets around the world would suffer like anything. Unlike other bourses, the Dhaka and Chittagong Stock exchanges also crashed to the drastic level as investors are under massive panic after detection of over 20 corona patients in the country. Following table shows the changes in stock indices between 1 January, 2020 and the 19 March 2020 in the Chittagong Stock Exchange:

Investment strategies to crack the crisis

The above table shows the market took a sharp dive recently and still we don't know where the COVIT-19 will take us. We are so worried about our investment as the virus is not only a threat to our health, but also to our financial stability. Since the points are yet to land more, what should be our investment strategy during recession? It is true that through appropriate policy formulation and implementation, the market may be recovered but the ultimate impact of disruption in the supply chain will continue. By nature, stock market is volatile. It goes up and comes down. During the recession, following actions are recommended to follow.

1. Set a long-term investment goal

As an investor, you should not be perplexed at the temporary turmoil of the market. History says, markets always get restored even after serious financial crisis.

2. Prepare a plan

Based on your capacity to bear the loss, you should prepare an investment plan. If you can digest volatility, you may try volatile shares but if the other way around, invest in fundamentally strong companies. It is experienced that during crisis, the prices of strong companies do not fluctuate too much.

3. Avoid emotions

When share prices go down, there is nothing to worry. Due to fear and anxiety you should not sell your shares. If all the investors follow this strategy, there will be no additional supplies and thus the prices will remain stable.

4. Diversify your investment

Investing in different shares and bonds comprising different sectors will keep your portfolio stronger and less risky. A particular crisis normally does not hit all the sectors equally. The benefits from less infected sector/shares will recover the losses on more infected sector/shares. Based on the position of your career length, you may select stocks as follows:

	Initial	Since you are about to start your career, you can increase your portfolio's long-term investment risk and set yourself up for higher potential returns
Career level	Mid	Since retirement is several years away, so you can make the most of the time you have to grow your investments with a moderate increase in the long-term investment portion of your portfolio.
	Last	Since you are very close to retirement, it makes sense to align your portfolio with your retirement income goals by diminishing investment risk and potentially providing higher returns. A diversified portfolio can help ensure you're closer to your dreams.

At the time of stock selection, you need to consider the risk level and the corresponding return possibility. You can tradeoff the risk and return as per following chart.

Risk level of investment portfolio

5. Manage your risk

Once your portfolio is ready, it is time to rebalance the portfolio to manage risk as the investment goal and macro factors do not remain constant. Rebalancing of portfolio protects investors from rash and taking emotional investment decisions when value starts to decline. The variety in portfolio will give a comprehensive picture of the market and thus will help to overcome the fear on temporary crisis.

6. Do nothing

There is a proverb that, during recession, the best thing to do is to do nothing. The falling market is just like a knife and selling stock is similar to catch the falling sharp knife with a bare hand. By not doing anything during crisis, you can at least save yourself from being a bear's lunch. Therefore, to remain calm, you should have investment in money market instruments which are short-term in nature and ensure regular liquidity and short maturity.

7. Invest in value stocks.

Financial crisis gives investors a chance to spot value stocks. Prices of fundamentally weak companies go down to drastic level while that of sound companies remain comparatively stable. Veteran investor Warren Buffet takes the opportunity of crisis to invest in some value companies.

8. Invest in non-cyclical stocks

Non-cyclical companies are those which produce salt, oil, toothpaste, shampoo, and shaving cream. These stocks normally perform better than the overall market during critical times and offer a consistent earnings and stable dividends, notwithstanding of the condition of the overall market.

Conclusion

To minimize the loss during crisis, an investor needs to stay calm, check the risk tolerance level and think carefully before making any new investment. A well-structured portfolio is the pre-requisite to stay stable during crisis. We should keep in mind that the market will recuperate either quickly or years from now but certainly it will.

Responding to the Stimulus Package announced for overall economy by the Honorable Prime Minister

April 10, 2020 Dhaka.

Mr. Asif Ibrahim, Chairman, CSE responded to the Stimulus Package announced by the Honorable Prime Minister as follows:

On 5th of April, 2020, the honorable Prime Minister has declared a stimulus package for the overall economy through her speech to the nation. On behalf of the Chittagong Stock Exchange and its board of directors and all the stakeholders, we perceive that the announced package by the Prime Minister is exactly a timely declaration and a bold step taken by her at a time.

Under the Social Safety program reaching the low-privileged people with only 10 Taka for each Kilogram of rice is a offer to really to be appreciated and realistic and a demand of time as well, since at this moment of great calamity these poor people can not work for their food and the condition seems to lengthen.

Moreover, we think the expanding monetary policy of this stimulus package is to increase the purchasing power of common people of the country. For this purpose we have to boost up the domestic demand so that purchasing power of people increases and the economy receives acceleration.

In case of industries, for large scale industries thirty-thousand crore taka program has been declared at a rate of 4.50% and program has been declared for SMEs at 4.00%. As a result the scheduled banks are going to be advantageous; remaining 9.00% interest burden is to be shared by the Government. Thus we hope the banks have opportunity to be benefited. EDF has been raised to 5 billion from 3.5 billion which will benefit the exporters, and for pre-shipping there is a scheme of Taka 5,000 crore at a rate of 7.00% which is really a great initiative.

All over the seventy two thousand-seven hundred and fifty crore taka stimulus package is an initiative which creates lots of hope. We hope, the importance of implementing the package is being considered. Disbursement of these loans needs harmony with situation and time. To pay the wages and salary and for the working capital needs the loans must reach the industries within shorter span of time. For serving the purpose, a taskforce can be developed by the Government.

At this moment both of the stock-exchanges are closed. We hope the capital market is going to observe the benefits after starting its operations from implementation of this package. Finally we congratulate and sincerely thank the honorable Prime Minister for these timely initiatives

Proposals of Stimulus Package for Chittagong Stock Exchange Ltd. (CSE) and all stakeholders

Chittagong, April 20, 2020:

CSE Chairman Asif Ibrahim and the Board of Directors have submitted the proposals to the Ministry of Finance and Bangladesh Securities and Exchange Commission as follows:

We all are well aware that the whole world, including our country, is now passing through a very crucial time due to the Covid-19 pandemic. The government has announced general holidays from March 26 to April 25. Governments of many countries of the world have declared total lockdown. People of each and every country are instructed to stay at home and not go out. This instruction has been given in to save the people, to save the country. The contemporary globalized, world economy is in the way to a deep recession and we are not an exception and the economy of Bangladesh is indisputably going to face a dense shock since the Export and foreign remittance would decrease and the domestic production is under serious threat due to hamper of import and thus, local demand will reduce.

Unlike others sectors mentioned above briefly, different stake holders of Bangladesh Stock Market have been severely affected since January this year. We are further aware of the fact that, the downtrend of the stock market has been ongoing since 2018 and Covid-19 is supplemented and escalated the sufferings of the small/institutional investors and different stakeholders of the Bangladesh Stock Market.

CSE has proposed a stimulus package in total 1050 Cr to the Finance Ministry and BSEC to consider for the CSE small investors and brokers at the time of severe crisis caused by pandemic and lockdown in the country:

Total	l	= Tk.1050 cr.
5.	Special Loan only for CSE Brokers:	Tk.500 cr.
4.	Waiver of BO Account Renew Fee:	Tk. 50 cr.
3.	Incentive of Corporate Tax of CSE:	Tk. 20 cr.
2.	Subsidize broker's office expenses:	Tk. 80 cr.
1.	Subsidize interest on Margin Loan:	Tk.400 cr.

A humble description of above proposal, are given below:

- Subsidize/freeze interest on Margin Loan: Small investors who have taken margin loan from their respective brokers of CSE at higher rate have to bear huge liability which cannot be met within the shortest possible time. If govt. offers a financial package to subsidize a majority portion of interest amount, i.e.400cr, it will be of great assistance for the small/retail investors of Chittagong Stock Exchange Ltd. Or, govt. can instruct relevant authority to waive interest amount for 6 months.
- Subsidize broker's office expenses: Due to lockdown and ongoing govt. holidays, brokers/dealers are not earning commission from their investors which are a mainstream income of their business. Considering the salaries for the month of April, May and also the EidBonusCSE urge govt. to subsidize 80% of this expense which is tk. 80 cr. and include itin the stimulation package. Or, government can arrange a soft loan for this amount of Tk.80 cr. as working capital @ 2% interest rate for the brokers so that they can overcome and meet their salary expenses.
- Cushion for Chittagong Stock Exchange: CSE has been always prompt in conveying the corporate tax and other govt. charges within due time. However, CSE has been lagging behind to reach its revenue target since 2018 due to various reasons mentioned briefly above and the situation deemed to be soaring due to the ongoing Covid-19 turmoil. Taking this into account govt. can consider reducing the corporate

tax rate for CSE from @35% to 10% to confront the current battle and the harmonious survival of CSE.

- Advance Income Tax (AIT) on Transaction value: Presently a small investor has to pay AIT on their every transaction value @ 0.05%. It can be reduced to 0.0025% which will help to condense their commission cost to broker significantly. This incentive will also participate in increasing exchange turnover in future.
- Waiver of BO Account Renew fee: We assume that there are 25 lakhs BO Accounts registered with CDBL and the total amount of Tk.50 cr. to be collected by NBR after end of June this year. We request to waive this amount and include in the stimulus package for the greater interest of small investors.
- Revise interest rate of 100bn loan: Bangladesh Bank in its recent circular approved Tk.100 bn loan for the ailing stock market which will be equally distributed of Tk.200 cr. among the interested commercial banks.
- Fresh Loan for CSE Brokers: Chittagong Stock Exchange feels that most of the moderate brokers of CSE can not avail the loan facility from the recent declared 100 bn loan facility by the Bangladesh Bank due to stringent criteria. Therefore, to pave a comfortable access into the fund, CSE seeks Bangladesh Bank to allocate a special fund/loan of Tk.500 cr. which will be distributed by CSE among the CSE stock Brokers after meeting eligible criteria set by CSE. CSE strongly believe that this opportunity will be a great help for CSE brokers who are directly participated in the development of Bangladesh Stock Market.

CSE Chairman Asif Ibrahim and the Board of Directors humbly request the government to consider the above proposal positively. The Chittagong Stock Exchange and its brokers/dealers will survive from huge business losses which soon due to the ongoing crisis of pandemic Covid-19. Therefore, many employees can save their jobs and small investors can turn around in the market positively.

CSE Management and Staff contributes to Prime Minister's Fund

May 10, 2020 Dhaka: Chittagong Stock Exchange (CSE) Management and Staff contributed one month's

basic salary of Tk 25 lac to the Prime Minister's Fund in an event held in the Prime Minister's Office. While giving the cheque CSE Chairman Asif Ibrahim mentioned to the Honorable Prime Minister that CSE has taken the responsibility of 4000 destitute families in Chittagong during the pandemic crisis. He also praised the leading of the Honorable Prime Minister and said, "We are inspired by you and together as a nation we shall overcome this crisis". CSE Chairman requested Honorable Prime Minister to kindly consider the CSE's request for a stimulus package of Tk 1050 crore for the benefit of retail investors and brokerage houses. CSE Managing Director Mamun- Ur-Rashid was also present in the occasion.

CSE has started its CSR for the people under hardship of their livelihood due to Covid-19 Pandemic

April 16, 2020 Chattogram: From 12 April, 2020 onward CSE has started its CSR by targeting 4000 families those are going under hardship of their livelihood due to COVID-19 Pandemic.

"Insha Allah, if it will be needed CSE will stand firmly besides the nation in future also." Mr. Asif Ibrahim, Chairman, CSE said on behalf of CSE Board, All stakeholders and Management.

On 12 April, 2020 Mr. Mohibul Hasan Chowdhury, Deputy Minister of Education, Ministry of Education, Peoples Republic of Bangladesh inaugurated the event and CSE director Maj (retd.) Emdadul Islam and other CSE officials were also present at that time.

CSE congratulates the new BSEC Chairman

May 18, 2020, Dhaka: CSE Managing Director Mamun-Ur-Rashid congratulated the new Bangladesh Securities and Exchange Commission (BSEC) Chairman Prof Shibli Rubayat Ul Islam with flower bouquet. Mr. Md. Ghulam Faruque, GM and In-charge Dhaka Office, CSE and other Officials were present at that time.

Courtesy meeting between CSE and DSE Chairmen

March 17, 2020 Dhaka: Mr. Asif Ibrahim, Chairman, CSE and Mr. Mamun-Ur-Rashid, Managing Director, CSE had a courtesy meeting with Mr. Eunusur Rahman, Chairman, DSE and Mr. Kazi Sanaul Hoq, Managing Director, DSE at DSE head office on March 15, 2020.

Message from CSE Chairman

March 09, 2020 Dhaka: Bangladesh Capital Market got severely affected after the coronavirus outbreak news in the country, which resulted in almost 280 points fall in DSE index and 769 in CSE index in a single day trading session. This is caused mainly by the panic sell by the investors as they might think corona virus might causes more hamper to our economy.

After the sharp fall in the index the market looks much cheaper in terms of market P/E ratio, which is around 10 or less than 10 at this stage.

Many stocks look much cheaper considering their future business potential and business outlook.

As Bangladesh is a growing economy with aspirations to become a developed country by 2041, we believe our capital market will grow in the same pace of our economic growth.

Already we came to know the main country, China, where from corona virus outbreak started, already controlled the virus attack successfully and the country has started their normal life except Wuhan province and they also reported the lowest number of new infections in a single day recently. We can assume that the trade between China and Bangladesh will normalize soon and global economy will also follow in the same direction.

Moreover, recently Bangladesh Bank released a directive regarding capital market investment, where a bank can invest up to 200 Crore by their own and through their subsidiaries, and the investment will not consider banks capital market exposure either through solo or consolidated basis.

So far, I know, few banks (around 10) started this process to get approval from their boards and the regulator, and is in the process of investing the fresh funds into capital market.

I humbly request to the Board of Directors & Senior managements of the banks who are yet to start their process under this directive, please step up and start your process and make your investment into this market as soon as possible.

Condolence

The Chairman, Board of Directors, Management & Staff, and all stakeholders of Chittagong Stock Exchange expressed their profound sorrow at the demise (Inna lillahi wa inna ilayhi raji'un).of the persons as follows:

May 26, 2020: Alhaz Mohammad Mockbul Hossain was a renowned businessperson and a former Lawmaker and Member of Parliament.

Mr. Hossain served the country in many ways. The people of Bangladesh will remember him for his bright political career and immense contribution in capital market, education, insurance, health and garments sectors along with many others. On behalf of CSE, we pray to Almighty Allah to grant him eternal peace and give strength to the bereaved family to bear this irreparable loss.

April 28, 2020 Dhaka: National Professor Dr. Jamilur Reza Choudhury was an educationist, a philanthropist and a former adviser of the government. He was internationally recognized through his work as one of the leading experts in his field. He made the entire country proud with his numerous achievements. His demise is a great loss for the nation. CSE prays for the salvation of his departed soul. May his soul rest in eternal peace.

May 26, 2020, Dhaka: Mrs Niloufer Manzur was a pioneering nation builder and founder of one of the finest English medium school "Sunbeams" in January 1974. All of her thousands of students across many age groups spread across the world will feel her passing away deep in their hearts. She taught thousands of her students' morality, values and patriotism along with top class education.

Her loss to the nation is immeasurable. May her soul rest in eternal peace.

CSE Family Mourns

Mr. Karim Ullah, Head of General Affairs department took his last breath at 6:00 am on June 02, 2020 in Chattogram. Innah lillahi wainnah ilaihi rajeun.

Mr. Karim joined CSE in September 1997. Though he started his carrier at CSE from the then Clearing & Settlement department, Mr. Karim proved his competence and farsightedness in the General Affairs department for a long time.

But his smiling face with cheerful personality was brightened above all of his official responsibilities. He used to meet the rest of the society pleasantly too.

Mr. Karim Ullah was one of the persons of social works also. He was the member of Lions Club and life-long member of Chattogram Ma o Shishu Haspatal (Mothers and Children Hospital).

Mr. Karim left his wife and two daughters. May his soul rest in eternal peace. We pray to the almighty to give strength to his bereaved family to bear this irreparable loss.

We, the CSE family, is afflicted due to his untimely demise.

Bangladesh stock market regulator moves to coordinate with financial market watchdog

Two key regulatory institutions overseeing Bangladesh's financial services industry and the capital market will work together to remove barriers borne out of lack of coordination, new head of securities market watchdog has announced.

One official from Bangladesh Bank and another from Bangladesh Securities and Exchange Commission will sit initially once a month and coordinate between the two institutions, Shibli Rubayat Ul Islam told the media after a meeting held recently. They will sit once every two months later. Shibli sat with the central bank following calls from analysts who pointed out a disconnect between the regulators as one of the reasons behind the bad condition of the stock market. One of the objectives of the latest effort is to help the banks establish a Tk 2 billion fund each for investment in stocks. The government allowed the banks to raise the funds with their own money beyond the limits on capital market investment as part of long-term plans to revive the sinking market. The banks can also take the money through treasury bill or treasury bond repo from the central bank if they fail to provide enough

money of their own for the funds. "Besides this, Bangladesh Bank informed us about some legal complexities. The two officials will also work on the issue," Shibli, the chairman of the stock market regulator, said. He discussed the call for relaxing curbs on banks' disbursing cash dividend for the year 2019 until Sept 30 to boost the fund flow in the banking system during the coronavirus outbreak. Shibli asked the central bank to take into account interests of the small investors as well.

Economists emphasize on coronavirus recovery

Economists say the government needs to rework the 2020-21 budget to help Bangladesh recover from the economic and fiscal damages caused by the coronavirus crisis instead of focusing on development.

It should draw up plans for a new financial blueprint to develop the health sector, broaden the tax net and reduce income inequality for the recovery, they suggested. The budget session of parliament is set to begin on Jun 11 with a massive deficit in revenue earnings in the outgoing financial year mostly due to the pandemic. Moreover, the World Bank has predicted only 2-3 percent GDP growth while the target was 8.2

percent. Honorable Finance Minister AHM Mustafa Kamal believes that Bangladesh will finally be able to post over 6 percent growth. The economy grew by less than 6 percent for the last time in 2009-10. "Recovery should get more importance than development," said Zaid Bakht, a researcher at Bangladesh Institute of Development Studies. The government should also prioritize the sectors related to health and small and medium enterprises, the Agrani Bank chairman said. Economist Qazi Kholiquzzaman Ahmad said development of the health sector should get the highest priority now.

Bangladesh looks to huge foreign funds to cover budget deficit amid pandemic

Honorable Finance Minister AHM Mustafa Kamal says he has received "positive response" from the donor agencies over the loan assistance. "We need a lot of money to offset the economic losses," he told the media recently, pointing out that revenue collection, export, import, remittance and every other sector took a blow from the coronavirus pandemic. Bangladesh had earlier taken budget assistance from the World Bank and Asian Development Bank. The International Monetary Fund also provided loans to keep balance of payment. But this time the government has sought Tk 1 billion from Japan International Cooperation Agency and Tk 190 million from the Islamic Development Bank or IsDB as well to narrow the budget deficit in an unprecedented move. Kamal said he spoke to Japanese Ambassador Naoki Ito over phone on May 10. "I hope we will get budget assistance from JICA for the first time," the minister

said. He sought IsDB's help during a conversation with its President Bandar MH Hajjar via video call on Apr 25. The IsDB has recently announced a \$2.3 billion bailout package in response to the coronavirus crisis.

Bangladesh initiates Tk 70bn project to generate self-employment in villages

The youth and sports ministry has taken up a Tk 70 billion project to create self-employment and alleviate poverty.

It aims at making the huge portion of the population, who have left the cities due to a lack of jobs amid the coronavirus lockdown, stay in their villages. Honorable State Minister for Youth and Sports Zahid Ahsan Russel revealed the information during "Let's Talk on Post COVID-19 Youth Development", earlier. Young Bangla, the youth platform of the Awami League's Centre for Research and Information, organizes the show, now online only via video conferencing due to the outbreak. Mr. Russel said the ministry targeted to self-employ 1.2 million youths. They will get training, mainly on agriculture and fisheries so that they can even create jobs for others instead of getting frustrated, the state minister said. The project papers were at the planning ministry. It got some recommendations during a meeting at the Prime Minister's Office while youths also expressed their views on it. Mr. Russel said another project to ensure employment of 200,000 youths in 2020 and 2021 was under way. It was named Bangabandu Youth Development to mark the birth centenary of Bangabandhu Sheikh Mujibur Rahman.

U.S. Job Losses See Revival in May: Here'sWhat It Means

Zacks Equity Research June 08, 2020

Per the latest job report released by the Labour Department, the US economy unexpectedly regained 2.5 million nonfarm payroll employment in the month of May and unemployment rate fell by 1.4 percentage points to 13.3%, buttressed by the gradual resumption of businesses and re-opening of the economy.

May's job numbers mark the reversal of record layoffs of 20.7 million and 1.4 million, registered in April and March, respectively, as employment rate saw a spike in most industries. Total number of unemployed persons came in at 21 million, down 2.1 million. Yet, average hourly earnings for all employees on private nonfarm payrolls declined 29 cents to \$29.75, reflecting job additions to lower-paying lines of work.

The reported figures outpaced even the most optimistic estimates. None of the economists included in the Bloomberg survey anticipated an uptick in jobs last month. According to Bloomberg consensus data, 7.5 million job losses were expected in May while the unemployment rate was forecast to inch up to 19%, from a record-breaking 14.7% in the prior month.

Employment Across the Board

Leisure and hospitality, one of the worst-hit industries, added 1.2 million workers following job losses of 7.5 million in April. Food services and drinking places added 1.4 million positions in May against a decline of 6.1 million posts in the prior two months. It constituted about half the total nonfarm job gain. However, accommodation industry witnessed an employment reduction of 148,000 last month.

Construction reported job gains worth 464,000 in May while employment in education and health services increased 424,000 after decreasing 2.6 million in April. Retail trade payroll rose 368,000, restoring some of the 2.3 million jobs during the previous month. Manufacturing added 225,000 job roles in the month with almost equal job gains in durable and non-durable goods components.

Government payrolls, however, continued its lay-off with losses recorded at 585,000 after rendering 963,000 positions redundant in April. Information, mining and transportation and warehousing industries also extended job losses from the previous month.

But the jobs report came with a caveat: The Bureau of Labor Statistics (BLS) confirmed that the unemployment rate would have been 16.3%, higher than the reported 13.3% figure, if it had not incorrectly labelled some furloughed employees as "working but absent", instead of rightly classifying them as temporarily laid off. In April, the BLS acknowledged that the misclassification error was to the tune of 5 percentage points, which meant the real unemployment rate was 19.7% instead of the stated figure of 14.7%.

The Big Picture: Full Resurgence in Employment Not Anytime Soon

Although the May data is looking encouraging, the vital question is, is it still giving us a true picture? Even the joblessness rate of 13.3% exceeds the unemployment rates in the aftermath of the financial crisis of 2008 and 2009. Today, the job level is still 20 million below the mark set in February.

Close to 50% of commercial rents is not being serviced. Several struggling retailers like J.C. Penney Company, Inc. (JCP), J. Crew, Neiman Marcus and Stage Stores were forced to file for bankruptcy protection. Nearly 30 million workers are still dependent on the unemployment sops. But for how long will the government keep granting welfare payments?. Over the next few months, we can expect a rebound in job creation. Even though the scenario will be better than what the recent-month figures suggest, there is still a long way to go before the labor market stabilizes and assumes the pre-pandemic standards.

The broad-based gains in payroll employment "indicates that the process of rehiring began sooner than the jobless claims figures suggested," reckons Michael Pearce, senior U.S. economist, Capital Economics. "With more states moving to loosen their lockdowns in the coming weeks, particularly in the populous Northeast, employment looks set to continue rebounding in June and beyond, although we still think it will be a long time before the labour market is anywhere near back to its pre-virus state."

বাংলাদেশ একাডেমি ফর সিকিউরিটিজ মার্কেটস (বাংলাদেশ সিকিউরিটিজ অ্যান্ড এক্সচেঞ্জ কমিশনের গবেষণা ও প্রশিক্ষণ ইন্সটিটিউট) এর উদ্যোগে ২৬ ফেব্রয়ারি ২০২০ ইং তারিখে সিকিউরিটিজ কমিশন ভবনে Financial Sector Analysis and Detection of Fraud শীর্ষক একটি সেমিনার অনুষ্ঠিত হয়। অনুষ্ঠানের উদ্বোধনী পর্বের শুরুতে স্বাগত বক্তব্য প্রদান করেন বাংলাদেশ সিকিউরিটিজ অ্যান্ড এক্সচেঞ্জ কমিশনের নির্বাহী পরিচালক ও বাংলাদেশ একাডেমি ফর সিকিউরিটিজ মার্কেটস এর মহা-পরিচালক জনাব মাহবুবুল আলম। তিনি তার বক্তব্যে অন্যান্যের মধ্যে প্রশিক্ষণের অপর গুরুতারোপ করেন। পরবর্তীতে কমিশনের নির্বাহী পরিচালক জনাব ফরহাদ আহমেদ কাস্টমার কমপ্লেইন এডেস মডিউল-এর উপর সংক্ষিপ্ত আলোকপাত করেন। উদ্বোধনী পর্বে প্রধান অতিথি হিসেবে উপস্থিত ছিলেন বাংলাদেশ সিকিউরিটিজ অ্যান্ড এক্সচেঞ্জ কমিশনের চেয়ারম্যান ও বাংলাদেশ একাডেমি ফর সিকিউরিটিজ মার্কেটস এর বোর্ড অব গভর্নরস এর চেয়ারম্যান ড. এম. খায়রুল হোসেন। তিনি বলেন, কোম্পানির আর্থিক প্রতিবেদনের মাধ্যমে বিনিয়োগকারীরা কোম্পানির পারফর্মেন্স ও আর্থিক সামর্থ্য সম্পর্কে ধারণা লাভ করে থাকে। তাই আর্থিক প্রতিবেদনের স্বচ্ছতা নিশ্চিত করার জন্য আমাদের সবাইকে একত্রে কাজ করতে হবে। প্রাতিষ্ঠানিক বিনিয়োগকারী, ক্ষুদ্র বিনিয়োগকারী, সাংবাদিক, ইস্যু ব্যবস্থাপক, নিয়ন্ত্রণকারী সংস্থাসহ পুঁজিবাজারের অন্যান্য অংশীজনকে আর্থিক প্রতিবেদন বিশ্লেষন ও সঠিকতা যাচাই করার সক্ষমতা বৃদ্ধি করতে হবে। তিনি বলেন, আর্থিক প্রতিবেদন প্রস্তুত করার ক্ষেত্রে মূল ভূমিকা পালনকারী হচ্ছে কোম্পানি এবং অডিট ফার্ম। তাদের অবশ্যই একাউন্টিং স্ট্যান্ডার্ড মেনে স্বচ্ছ ও সঠিক প্রতিবেদন প্রস্তুত করা উচিত। তিনি আরো বলেন, ভালো আইপিও আনতে হলে ও আইপিও হতে উত্তোলিত অর্থের সঠিক ব্যবহার নিশ্চিত করতে হলে সঠিক ও সচ্ছ আর্থিক প্রতিবেদনের কোন বিকল্প নেই। তিনি বলেন, পুঁজিবাজারের স্বচ্ছতা ও জবাবদিহিতা নিশ্চিত করনের জন্য ইতিমধ্যে স্পেশাল ট্রাইব্যুনাল ও ফাইন্যান্সিয়াল কাউন্সিল গঠিত হয়েছে। তিনি সাংবাদিকদের উদ্যোশে বলেন, সাংবাদিকরা হচ্ছেন জাতির বিবেক এবং সাংবাদিকরা সঠিক তথ্য ও উপাত্ত প্রকাশের মাধ্যমে বিনিয়গকারীদের সচেতনতা বৃদ্ধির মাধ্যমে পুঁজিবাজারের উন্নয়নে গুরুতপূর্ন ভূমিকা পালন করতে পারে। কোম্পানিসমুহের সঠিক ও স্বচ্ছ আর্থিক প্রতিবেদন নিশ্চিতির মাধ্যমে পুঁজিবাজারের সার্বিক উন্নয়নে সাংবাদিকসহ সকলের সহযোগিতার আহবান জানিয়ে তিনি তার বক্তব্য শেষ করেন। এ সময় কমিশনের কমিশনারবৃন্দ উপস্থিত ছিলেন।

সেমিনারের টেকনিক্যাল সেশন পর্বের শুরুতে Financial Sector Analysis and Detection of Fraud এর উপর মূল প্রবন্ধ উপস্থাপন করেন বাংলাদেশ সিকিউরিটিজ অ্যান্ড এক্সচেঞ্জ কমিশনের পরিচালক ও বাংলাদেশ একাডেমি ফর সিকিউরিটিজ মার্কেটস এর অতিরিক্ত মহা-পরিচালক মোহাম্মদ রেজাউল করিম। মূল প্রবন্ধে কোম্পানির আর্থিক প্রতিবেদনে কি ধরনের অসঞ্চতি ও অনিয়ম থাকতে পারে, কিভাবে আর্থিক প্রতিবেদন বিচার-বিশ্লেষণ করতে হয় সে সকল পদ্ধতি ও কৌশল সংক্রান্ত বিষয়ে আলোচনা করা হয়।

পরবর্তীতে উক্ত বিষয়ের উপর প্যানেল আলোচনা ও প্রশ্নোত্তর পর্ব অনুষ্ঠিত হয়। প্যানেল আলোচক হিসেবে উপস্থিত ছিলেন বাংলাদেশ সিকিউরিটিজ অ্যান্ড এক্সচেঞ্জ কমিশনের পরিচালক জনাব কামরুল আনাম খান, এসিএমএ, ফাইন্যান্সিয়াল রিপোর্টিং কাউন্সিল-এর নির্বাহী পরিচালক জনাব মোহাম্মদ মহিউদ্দিন আহমেদ, এফসিএ, সেন্ট্রাল ডিপোজিটরি বাংলাদেশ লিমিটেড-এর এমডি ও সিইও জনাব শুদ্র কান্তি চৌধুরী, এফসিএ, সিএমজেএফ এর সভাপতি জনাব হাসান ইমাম রুবেল এবং ঢাকা বিশ্ববিদ্যালয়ের ফিন্যান্স বিভাগের সহকারী অধ্যাপক মোহাম্মদ সালাউদ্দিন চৌধুরী, এফসিএ। এ সেশনটি পরিচালনা করেন বাংলাদেশ সিকিউরিটিজ অ্যান্ড এক্সচেঞ্জ কমিশনের নির্বাহী পরিচালক জনাব ফরহাদ আহমেদ। অনুষ্ঠানে স্টক এক্সচেঞ্জ, মার্চেন্ট ব্যাংকার এবং সিএমজেএফ ও পুঁজিবাজার সংশ্লিষ্ট সাংবাদিকবৃন্দসহ প্রায় ২০০ জন উপস্থিত ছিলেন এবং অনেকে তাদের মূল্যবান মতামত প্রদান করেন।

বাংলাদেশ সিকিউরিটিজ অ্যান্ড এক্সচেঞ্জ কমিশন (বিএসইসি) এর নর্বনিযুক্ত চেয়ারম্যান অদ্য ০১/০৬/২০২০ তারিখে গভর্ণর, বাংলাদেশ ব্যাংক (বিবি) এর সাথে ব্যাংকের বোর্ড রুমে এক সৌজন্য সাক্ষাতে মিলিত হন।

সর্ব প্রথমে বাংলাদেশ ব্যাংক এর মাননীয় গভর্ণর মহোদয়, বাংলাদেশ সিকিউরিটিজ অ্যান্ড এক্সচেঞ্জ কমিশন (বিএসইসি) এর চেয়ারম্যান মহোদয়কে উষ্ণ অভ্যর্থনা জানান এবং ফুলের তোড়া দিয়ে তাঁকে সাদরে গ্রহণ করেন। বাংলাদেশ সিকিউরিটিজ অ্যান্ড এক্সচেঞ্জ কমিশন এর চেয়ারম্যান মহোদয় বাংলাদেশ ব্যাংক এর গভর্ণর মহোদয়কে সৌজন্য সাক্ষাতে তাঁকে আমন্ত্রণ জানানোর জন্য ধন্যবাদ জ্ঞাপন করেন। নবগঠিত কমিশনের সাথে বাংলাদেশ ব্যাংক এর এটি প্রথম সৌজন্য সাক্ষাৎ হলেও বর্তমানে দেশের কোভিড-১৯ পরিস্থিতির প্রেক্ষিতে সার্বিক অবস্থা নিয়ে সভায় আলোচনা হয়। চেয়ারম্যান, বিএসইসি উল্লেখ করেন অর্থ বাজার ও পুঁজিবাজার অর্থনীতির মূল চালিকা শক্তি বিধায় উভয় বাজারে সম্মিলিত প্রয়াসের মাধ্যমে দেশের অর্থনীতিকে এগিয়ে নিতে হবে। তিনি আরও উল্লেখ করেন, বর্তমান কোভিড-১৯ এর মত কঠিন পরিস্থিতিতে দেশের অর্থনীতিকে চলমান রাখতে বাংলাদেশ ব্যাংক এর ভূমিকা অত্যন্ত প্রশংসনীয়। দেশের অর্থনৈতিক উল্লেয়নের জন্য স্বাইকে একই উদ্দেশ্য নিয়ে কাজ করার বিষয়ে সভায় গুরুত্ব আরোপ করা হয়।

আলোচনায় অন্যান্যের মধ্যে বিএসইসির চেয়ারম্যান তিনটি বিষয় বিশেষভাবে উল্লেখ করেন। প্রথমতঃ সম্প্রতি পুঁজিবাজারে বিনিয়োগের জন্য বাণিজ্যিক ব্যাংকগুলোকে ২০০ কোটি টাকার তহবিল গঠনে বাংলাদেশ ব্যাংক গত ১০/০২/২০২০ তারিখে ডিওএস সার্কুলার-১ এর মাধ্যমে যে সুযোগ দিয়েছে, সে ক্ষেত্রে মাত্র ২টি বাণিজ্যিক ব্যাংক এ তহবিল থেকে আংশিক অর্থ পুঁজিবাজারে বিনিয়োগ করেছে। এছাড়া অন্য ৮টি বাণিজ্যিক ব্যাংক তাদের বোর্ড মিটিং এর মাধ্যমে উক্ত তহবিল গঠনের অনুমোদন নিলেও পুঁজিবাজারে বিনিয়োগে এগিয়ে আসেনি। এ বিষয়ে তিনি বাংলাদেশ ব্যাংক এর সদয় হস্তক্ষেপ কামনা করেন।

দ্বিতীয়তঃ সম্প্রতি গত ১১ মে ২০২০ তারিখে বাংলাদেশ ব্যাংক এর ডিওএস সার্কুলার নং- ৩ এর মাধ্যমে ব্যাংকগুলির ২০১৯ সনের জন্য শেয়ারের বিপরীতে লভ্যাংশ ঘোষণা ও এই সংক্রান্ত নীতিমালা জারী করে। এর পরিপ্রেক্ষিতে ২০১৯ সনের সমাপ্ত বছরের জন্য যোষিত নগদ লভ্যাংশ ৩০ সেপ্টেম্বর ২০২০ এর পূর্বে বিতরণ করা যাবে না মর্মে উক্ত সার্কুলারে উল্লেখ করা হয়েছে। চেয়ারম্যান, বিএসইসি ঘোষিত লভ্যাংশ যাতে ক্ষুদ্র বিনিয়োগকারীরা অবিলম্বে পায় সে বিষয়ে বাংলাদেশ ব্যাংক এর গভর্ণর মহোদয়ের দৃষ্টি আকর্ষণ করেন। বাংলাদেশ ব্যাংক বিষয়টি বিবেচনা করছে মর্মে গভর্ণর মহোদয় সভায় আশ্বাস দেন।

তৃতীয়তঃ ব্যাংক থেকে গৃহীত ঋণ এর ক্ষেত্রে বাংলাদেশ ব্যাংক এর সম্প্রতি প্রকাশিত সার্কুলার বিআরবিডি নং-১১, তারিখ ০৩/০৫/২০২০ অনুযায়ী এপ্রিল ও মে মাসের সূদ স্থগিত করা হয়েছে। যা মার্চেন্ট ব্যাংক ও বাজার মধ্যস্থতাকারী প্রতিষ্ঠানের ক্ষেত্রেও প্রযোজ্য করার ক্ষেত্রে চেয়ারম্যান, বিএসইসি অনুরোধ জানান। এর প্রেক্ষিতে গভর্ণর, বাংলাদেশ ব্যাংক জানান যে, মার্চেন্ট ব্যাংক ও বাজার মধ্যস্থতাকারীদের ক্ষেত্রেও এপ্রিল ও মে মাসের সুদ স্থগিতের সুবিধা প্রযোজ্য হবে। এছাড়াও সার্কুলারের আওতায় ভবিষ্যতে প্রদন্ত সুবিধার ক্ষেত্রেও মার্চেন্ট ব্যাংক ও বাজার মধ্যস্থতাকারী প্রতিষ্ঠানগুলি অন্তর্ভুক্ত হবে।

এছাড়াও বিএসইসি এবং বিবি এর মধ্যে সমন্ত্র আরো জোরদার করার লক্ষ্যে একটি সমন্ত্রর কমিটি গঠন করার বিষয়ে আলোচনা হয় এবং উক্ত কমিটিতে কমিশনের পক্ষ থেকে ড. শেখ শামসূদ্দিন আহমেদ, কমিশনার, বিএসইসি কে ফোকাল পয়েন্ট হিসেবে প্রস্তাব করা হয়। এই সমন্বয় কমিটির প্রস্তাবে বিবি এর গভর্ণর মহোদয় সম্মতি প্রদান করেন। কমিটিতে বিবি এর ফোকাল পয়েন্ট হিসেবে জনাব মোঃ মাসুদ বিশ্বাস, নির্বাহী পরিচালক প্রতিনিধিত্ব করবেন বলেও জানান হয়। এছাড়া উক্ত কমিটি, প্রথম তিন মাসের প্রতি মাসে এবং পরবর্তীতে প্রতি দুই মাস অন্তর সভায় মিলিত হবেন মর্মেও সিদ্ধান্ত হয়।

আলোচনায় বাংলাদেশ ব্যাংক ডেরিভেটিভস্, বন্ড, লভ্যাংশ বিতরণসহ বিভিন্ন সভার বাধ্যবাধকতার বিষয়ে আইনগত জটিলতা নিরসনের লক্ষ্যে বিএসইসি এর সহায়তা কামনা করেন এবং বিএসইসি এ বিষয়ে পূর্ণ সহযোগিতার **আশ্বাস প্রদান করে।**

বর্ণিত সভায় বিএসইসির পক্ষ থেকে আরও উপস্থিত ছিলেন জনাব খোন্দকার কামালউজ্জামান, কমিশনার, ড. শেখ শামসৃদ্দিন আহমেদ, কমিশনার এবং জনাব মোঃ সাইফুর রহমান, নির্বাহী পরিচালক। সভায় বাংলাদেশ ব্যাংক এর পক্ষ থেকে আরও উপস্থিত ছিলেন জনাব এস, এম, মনিরুজ্জামান, ডেপুটি গভর্ণর, জনাব আহমেদ জামাল, ডেপুটি গভর্ণর, আল্লাহ মালিক কাজেমি, অ্যাডভাইজার, জনাব সিরাজুল ইসলাম, নির্বাহী পরিচালক, জনাব মোঃ মাসুদ বিশ্বাস, নির্বাহী পরিচালক, জনাব আবু ফারাহ মোঃ নাসের, নির্বাহী পরিচালক এবং জনাব মোঃ আমিনুর রহমান চৌধুরী, উপ-মহাব্যবস্থাপক।

সভার শেষে ধন্যবাদ জ্ঞাপনের মাধ্যমে গভর্ণর, বাংলাদেশ ব্যাংক এবং চেয়ারম্যান, বিএসইসি ভবিষ্যতে এই দুই প্রতিষ্ঠান আরও সম্পৃক্ত হয়ে দেশের অর্থনৈতিক উন্নয়নে ভূমিকা রাখবে মর্মে আশাবাদ ব্যক্ত করেন।
