(v) *'Risks in relation to the First Issue'*

"This being the first issue of the issuer, there has been no formal market for the securities of the issuer. The face value of the securities is Tk. 10.00 (ten) and the issue price is Tk. 10.00, i.e. the face value. The issue price has been determined and justified at par value as stated under the paragraph on "Justification of Issue Price" should not be taken to be indicative of the market price of the securities after listing. No assurance can be given regarding an active or sustained trading of the securities or the price after listing."

(vi) *'General Risk'*

"Investment in securities involves a degree of risk and investors should not invest any funds in this offer unless they can afford to take the risk of losing their investment. Investors are advised to read the risk factors carefully before taking an investment decision in this offer. For taking an investment decision, investors must rely on their own examination of the issuer and the offer including the risks involved. Given the emerging nature of small capital companies, there may be a higher investment risk attached to the securities being offered. The securities to be traded on the Small Capital Platform may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be an active market for trading of such securities. The securities have not been recommended by the Bangladesh Securities and Exchange Commission (BSEC) nor does BSEC guarantee the accuracy or adequacy of this document. Specific attention of investors is invited to the statement of 'risk factors' given on page number(s) 104-112"

CHAPTER (I)

EXECUTIVE SUMMARY

(i) About the industry:

There are 30,000 species of harmful weeds, 3,000 species of deadly nematodes, 10,000 species of plant-eating insects and numerous dangerous fungus against which the crops have to fight for their survival. These harmful weeds, insects and fungi are commonly referred as pests. A study revealed that globally an average of 35 percent of the potential crop yield is lost to pests and diseases. Another study showed the loss of food production due to diseases, insects and weeds. Crop protection (CP) products commonly known as pesticides or agrochemicals are used to control the harmful pests.

There are different categories of pesticides like insecticides for controlling insects, herbicides for managing weeds, fungicides for protecting the plants from various diseases. Besides controlling the deadly pests, some CP products have crop enhancement (CE) properties that enhance crops' vigour and improve flower and fruits settings ability, resulting in more yields. These chemistries also help the grains or fruits to become shinier and bolder and eventually facilitate the farmers to obtain better market price for their produces.

Consumption of pesticides globally is about two million tonnes per year, according to a report. Of the amount, Europe alone consumes 45 percent, the US 25 percent and the rest of the world the remaining 30 percent. As for the types, Herbicides account for 48 percent of total pesticides applied globally, followed by insecticides at 30 percent and fungicides at 18 percent. China is the largest pesticide-consuming country in the world, followed by the US and Argentina.

Statistics show that China also leads the table in per hectare pesticide usage with around 14.82 kg, followed by Japan at 11.85 kg. Pesticide consumption in per hectare of land in some of the other developed countries is: France 3.9 kg, Germany 3.8 kg, the UK 2.93 kg, Canada 1.45 kg, and the US 2.42 kg. In Bangladesh, it is about 1.86 kg. Total pesticide consumption in 2016 was about 35,000 tonnes, of which 14,000 tonnes were the active ingredients, according to data from the Bangladesh Crop Protection Association (BCPA).

The CP industry is playing a critical role in the country's agriculture sector in terms of enhancing food production and thus contributing to the overall economy. The present market value of the industry is about \$250 million. In the last ten years, the

industry has experienced nearly 10 percent cumulative annual growth. It is expected to grow at a similar pace, if not better, since the country needs to boost its agriculture productivity to ensure food security for its increasing population.

At present, there are about 350 companies working in the sector, employing roughly 25,000. Approximately 50,000 dealers across the country are involved in selling pesticides. Despite its significant contribution to the country's agriculture, the industry often fails to get due recognition; rather, wrong perceptions exist about pesticides in the minds of many. Sometimes, preservatives like formalin or chemicals like carbide are mixed up with agrochemicals.

In agro-based industry, seeds are also sold in local market. Moreover, micronutrients fertilizer helps to increase productivity of the crops.

But, the industry is highly regulated and governed by law of the land. Integrated Pest Management (IPM) is a well-recognized scientific means recommended by scientists and competent authorities to handle pest problems. It does endorse the usage of chemicals or pesticides along with other ways and means. Growers should be adequately trained on the safety measures to be taken during pesticide application to avoid any adverse impact.

Another acute challenge for the sector is the counterfeit and adulterated products. Farmers often get cheated with fake chemicals. This is a highly technical sector that requires sound knowledge. To ensure judicious use of pesticide, there is no alternate to imparting the knowledge across the value chain, from the dealers to the farmers.

CHAPTER (VI)

DESCRIPTION OF THE ISSUER

(a) Summary:

- (i) **The summary of the industry and business environment of the issuer. The summary shall not be one-sided or biased to highlight the issuer or the issue;**

Summary of the industry:

There are 30,000 species of harmful weeds, 3,000 species of deadly nematodes, 10,000 species of plant-eating insects and numerous dangerous fungus against which the crops have to fight for their survival. These harmful weeds, insects and fungi are commonly referred as pests. A study revealed that globally an average of 35 percent of the potential crop yield is lost to pests and diseases. Another study showed the loss of food production due to diseases, insects and weeds. Crop protection (CP) products commonly known as pesticides or agrochemicals are used to control the harmful pests.

There are different categories of pesticides like insecticides for controlling insects, herbicides for managing weeds, fungicides for protecting the plants from various diseases. Besides controlling the deadly pests, some CP products have crop enhancement (CE) properties that enhance crops' vigour and improve flower and fruits settings ability, resulting in more yields. These chemistries also help the grains or fruits to become shinier and bolder and eventually facilitate the farmers to obtain better market price for their produces.

TOP 10 PESTICIDES CONSUMING COUNTRIES		
RANK	COUNTRY	ANNUAL CONSUMPTION (IN MILLION KILOGRAMS)
1	China	1,806
2	United States	386
3	Argentina	265
4	Thailand	87
5	Brazil	76
6	Italy	63
7	France	62
8	Canada	54
9	Japan	52
10	India	40

SOURCE: WORLDATLAS.COM

Consumption of pesticides globally is about two million tonnes per year, according to a report. Of the amount, Europe alone consumes 45 percent, the US 25 percent and the rest of the world the remaining 30 percent. As for the types, Herbicides account for 48 percent of total pesticides applied globally, followed by insecticides at 30 percent and fungicides at 18 percent. China is the largest pesticide-consuming country in the world, followed by the US and Argentina.

Statistics show that China also leads the table in per hectare pesticide usage with around 14.82 kg, followed by Japan at 11.85 kg. Pesticide consumption in per hectare of land in some of the other developed countries is: France 3.9 kg, Germany 3.8 kg, the UK 2.93 kg, Canada 1.45 kg, and the US 2.42 kg. In Bangladesh, it is about 1.86 kg. Total pesticide consumption in 2016 was about 35,000 tonnes, of which 14,000 tonnes were the active ingredients, according to data from the Bangladesh Crop Protection Association (BCPA).

The CP industry is playing a critical role in the country's agriculture sector in terms of enhancing food production and thus contributing to the overall economy. The present market value of the industry is about \$250 million. In the last ten years, the industry has experienced nearly 10 percent cumulative annual growth. It is expected to grow at a similar pace, if not better, since the country needs to boost its agriculture productivity to ensure food security for its increasing population.

At present, there are about 350 companies working in the sector, employing roughly 25,000. Approximately 50,000 dealers across the country are involved in selling pesticides. Despite its significant contribution to the country's agriculture, the industry often fails to get due recognition; rather, wrong perceptions exist about pesticides in the minds of many. Sometimes, preservatives like formalin or chemicals like carbide are mixed up with agrochemicals.

In agro-based industry, seeds are also sold in local market. Moreover, micronutrients fertilizer helps to increase productivity of the crops.

But, the industry is highly regulated and governed by law of the land. Integrated Pest Management (IPM) is a well-recognized scientific means recommended by scientists and competent authorities to handle pest problems. It does endorse the usage of chemicals or pesticides along with other ways and means. Growers should be adequately trained on the safety measures to be taken during pesticide application to avoid any adverse impact.

Another acute challenge for the sector is the counterfeit and adulterated products. Farmers often get cheated with fake chemicals. This is a highly technical sector that requires sound knowledge. To ensure judicious use of pesticide, there is no alternate to imparting the knowledge across the value chain, from the dealers to the farmers.

Local market, demand and supply forecasts for the sector:

There are 30,000 species of harmful weeds, 3,000 species of deadly nematodes, 10,000 species of plant-eating insects and numerous dangerous fungus against which the crops have to fight for their survival. These harmful weeds, insects and fungi are commonly referred as pests. A study revealed that globally an average of 35 percent of the potential crop yield is lost to pests and diseases. Another study showed the loss of food production due to diseases, insects and weeds. Crop protection (CP) products commonly known as pesticides or agrochemicals are used to control the harmful pests.

There are different categories of pesticides like insecticides for controlling insects, herbicides for managing weeds, fungicides for protecting the plants from various diseases. Besides controlling the deadly pests, some CP products have crop enhancement (CE) properties that enhance crops' vigour and improve flower and fruits settings ability, resulting in more yields. These chemistries also help the grains or fruits to become shinier and bolder and eventually facilitate the farmers to obtain better market price for their produces.

SOURCE: WORLDSTATS.COM

Consumption of pesticides globally is about two million tonnes per year, according to a report. Of the amount, Europe alone consumes 45 percent, the US 25 percent and the rest of the world the remaining 30 percent. As for the types, Herbicides account for 48 percent of total pesticides applied globally, followed by insecticides at 30 percent and fungicides at 18 percent. China is the largest pesticide-consuming country in the world, followed by the US and Argentina.

Statistics show that China also leads the table in per hectare pesticide usage with around 14.82 kg, followed by Japan at 11.85 kg. Pesticide consumption in per hectare of land in some of the other developed countries is: France 3.9 kg, Germany 3.8 kg, the UK 2.93 kg, Canada 1.45 kg, and the US 2.42 kg. In Bangladesh, it is about 1.86 kg. Total pesticide consumption in 2016 was about 35,000 tonnes, of which 14,000 tonnes were the active ingredients, according to data from the Bangladesh Crop Protection Association (BCPA).

The CP industry is playing a critical role in the country's agriculture sector in terms of enhancing food production and thus contributing to the overall economy. The present market value of the industry is about \$250 million. In the last ten years, the industry has experienced nearly 10 percent cumulative annual growth. It is expected to grow at a similar pace, if not better, since the country needs to boost its agriculture productivity to ensure food security for its increasing population.

At present, there are about 350 companies working in the sector, employing roughly 25,000. Approximately 50,000 dealers across the country are involved in selling pesticides. Despite its significant contribution to the country's agriculture, the industry often fails to get due recognition; rather, wrong perceptions exist about pesticides in the minds of many. Sometimes, preservatives like formalin or chemicals like carbide are mixed up with agrochemicals.

In agro-based industry, seeds are also sold in local market. Moreover, micronutrients fertilizer helps to increase productivity of the crops.

But, the industry is highly regulated and governed by law of the land. Integrated Pest Management (IPM) is a well-recognized scientific means recommended by scientists and competent authorities to handle pest problems. It does endorse the usage of chemicals or pesticides along with other ways and means. Growers should be adequately trained on the safety measures to be taken during pesticide application to avoid any adverse impact.

Another acute challenge for the sector is the counterfeit and adulterated products. Farmers often get cheated with fake chemicals. This is a highly technical sector that requires sound knowledge. To ensure judicious use of pesticide, there is no alternate to imparting the knowledge across the value chain, from the dealers to the farmers.

CHAPTER (XIX)

RISK FACTORS AND MANAGEMENT'S PERCEPTIONS ABOUT THE RISKS

(i) Internal risk factors may include, among others:

- a) **Credit Risk:** This is the risk of default on a debt that may arise because of default by the borrower to pay the loan. In operating any business there is always credit risk lies in the business. As there is always lending and borrowing between parties in the form of money and goods.

Management Perception: Credit Risk mainly lies with Financial Institutions. Since Mamun Agro Products Ltd. is involved in importing, producing and formulating agro-based products and marketing these products to the local markets, there is no such credit risk. As for credit sales, company tries to ensure credit policy so that operating cycle can be efficient comparing to other competitors.

- b) **Liquidity Risk:** The risk that a company may be unable to meet short term financial demands. This usually occurs due to the inability to convert its current assets to cash without a loss of capital or income. Liquidity is a common phenomenon of the business.

Management Perception: Finance is an arts and science of managing fund so that it can manage working capital in efficient way. Mamun Agro Products Ltd. is also doing its level best to manage working capital management in efficient way to maintain liquidity risk. Management is dealing with accounts payable, inventory and accounts receivable efficiently.

- c) **Risk associated with the issuer's interest in subsidiaries, joint ventures and associates:** If the subsidiaries make loss, it affects parent company's balance sheet. In case of associate, there is chance of decline value of investment in associate company. As for joint venture, a joint venture (JV) is a business arrangement in which two or more parties agree to pool their resources for the purpose of accomplishing a specific task. This task can be a new project or any other business activity. In a joint venture (JV), each of the participants is responsible for profits, losses and costs associated with it.

Management Perception: Mamun Agro Products Ltd. has no subsidiary, associate and joint venture.

- d) **Significant revenue generated from limited number of customers, losing any one or more of which would have a material adverse effect on the issuer:** There is risk involved in having limited number of customer and losing of that particular customer has negative impact on company's sales and cash flow as well.

Management Perception: The Management is always keen to find out new buyers which boost up the sales. The company generates revenues from importing, producing and formulating agro-based products through its dealers. Across the country, there are more than 400 dealers. Hence, the company is not dependent on any particular or limited number of customers to operate the business.

- e) **Dependency on a single or few suppliers of raw materials, failure of which may affect production adversely:** There is also risk involved in having limited number of suppliers as well. Single or few suppliers may exploit the company by price hike, untimely delivery and low quality of product.

Management Perception: In business, having many suppliers of raw materials helps to get competitive advantage of cheaper price of raw materials. Because, having many suppliers help to bargain with suppliers over price. In addition, having many supplier helps to maintain doing business efficiently. As we hold the views, we are not

dependent on a single or few suppliers. We have many suppliers from different countries that we have also mentioned in the prospectus.

- f) **More than 20% revenue of the issuer comes from sister concern or associate or subsidiary:** Having 20% revenue generation from sister concern or associate or subsidiary makes issuer dependent on others companies. Hence, there is dependency risk.

Management Perception: We do not have any sister concerns and associate or subsidiary.

- g) **Negative earnings, negative cash flows from operating activities, declining turnover or profitability, during last five years, if any:** Negative earning and negative operating cash flow is risk the going concern risk for the entity.

Management Perception: We have been operating our business efficiently. We do not have any negative earning, negative cash flow from operation in the last five years.

- h) **Loss making associate/subsidiary/group companies of the issuer:** When associate/subsidiary/group companies of the issuer are loss making, it affects the issuer and there is negative impact on cash flow of issuer and Balance Sheet as well.

Management Perception: We do not have any associate, subsidiary or group of companies.

- i) **Financial weakness and poor performance of the issuer or any of its subsidiary or associates:** Financial weakness and poor performance of the issuer have negative impact on the company. As a result it will be tough to pay loan interest, debt service and dividend. Future growth will be hampered.

Management Perception: Sales is one of the key indicators of success of a business if there is good margin of profit. Mamun Agro Products Ltd. has been generating stable sales growth.

- j) **Decline in value of any investment:** If investment value decline, it will reduce the profit and assets as well.

Management Perception: Mamun Agro Products Ltd. does not have any investment.

- k) **Risk associated with useful economic life of plant and machinery, if purchased in second hand or reconditioned:** There is obsolescence risk relating to plant and machinery. If the machinery is purchased in second hand or reconditioned, there high risk of repair and maintenance which has impact on profitability of the company.

Management Perception: The machineries that are used for Mamun Agro Products Ltd. are new machineries.

- l) **Adverse effect on future cash flow if interest free loan given to related party or such loans taken from directors may recall:** It is loan given and taken from related party and directors as well. If company gives such loan without interest to related party, there is interest burden for the company if the money was taken as loan. On the other hand, if such loans are taken from directors, it will have an impact on the cash flow to pay off the loan to the Directors.

Management Perception: There is no as such loan given to related party or loan taken from directors.

- m) **Potential conflict of interest, if the sponsors or directors of the issuer are involved with one or more ventures which are in the same line of activity or business as that of the issuer and if any supplier of raw materials or major customer is related to the same sponsors or directors:** In these cases there is high chance of compromise among the related companies because of conflict of Interest.

Management Perception: There is no potential conflict of interest as no sponsors or directors are involved in same line activity.

- n) **Related party transactions entered into by the company those may adversely affect competitive edge:** Related party transaction of the issuer creates conflict of interest which reduces the competitive advantage of the issuer.

Management Perception: There is no related party transaction other than purchasing land from Managing Director and chairman.

- o) **Any restrictive covenants in any shareholders' agreement, sponsors' agreement or any agreement for debt or preference shares or any restrictive covenants of banks in respect of the loan/ credit limit and other banking facilities:** All information must be known to the potential investor so that investor's interest may not be hampered in future. So, any restrictive covenants, if it goes against potential investors, will make investors in jeopardy.

Management Perception: There are no restrictive covenants in any shareholders' agreement, sponsors' agreement or any agreement relating to debt or preference shares or any restrictive covenants of Banks in respect of loan or credit limit and other banking facilities.

- p) **Business operations may be adversely affected by strikes, work stoppages or increase in wage demands by employees:** In such case, company's business operation will be hampered.

Management Perception: Different kind of strikes are not new in Bangladesh for long time and our business industries are used to dealing with this phenomenon. In relation to wages, we provide competitive wages among the competitors of us.

- q) **Seasonality of the business of the issuer:** It is the risk involving that company is not doing business round the year.

Management Perception: Mamun Agro Products Ltd. is an agro-based company and its principal activities is to import, produce and formulate agro-based products that help our farmers to increase their productivity. In this regard, we import different kinds of insecticides, herbicides, fungicides, micro nutrition fertilizers and sell off these products into local market. These products help farmers to protect their crops from diseases, insects and weeds and thereby increasing farm's production. These kinds of pesticides are needed round the year when cultivating different kinds of paddy, crops, vegetables and fruits and so on. Hence, pesticides are used round the year depending on cultivating different kinds of crops, paddy, fruits and vegetables. We also sell seeds into the local market. Moreover, we manufacture a micronutrients fertilizer that helps to increase productivity of the crops.

- r) **Expiry of any revenue generating contract that may adversely affect the business:** This is the risk of losing customers affecting future sales.

Management Perception: The Company does not have any revenue generating contract that may adversely affect the business.

- s) **Excessive dependence on debt financing which may adversely affect the cash flow:** Excessive dependence on debt causes huge interest burden of the company and high risk of insolvency that may result in bankruptcy.

Management Perception: Company is not dependent on any excessive debt financing and total liabilities is around 18% of the total assets.

- t) **Excessive dependence on any key management personnel absence of whom may have adverse effect on the issuer's business performance:** Excessive dependence on key management affects the business if the management is changed in future, which will create vacuum. Besides, if the key management personnel are of bad intention, excessive dependence will also affect the business.

Management Perception: Corporate Governance is well practiced in our company. The company also has well placed organogram in our company. Hence, any change in the key management can be replaced with other persons.

- u) **Enforcement of contingent liabilities which may adversely affect financial condition:** It is the future burden of liabilities that the investors will take on their shoulders. Contingent liabilities reduced the assets or create obligation to pay the liabilities.

Management Perception: We do not have any contingent liabilities which may adversely affect financial condition.

- v) **Insurance coverage not adequately protect against certain risks of damages:** Insurance ensures and protects to deal with uncertainty of future material loss/damage. So, insurance coverage is important for the business.

Management Perception: We have fire insurance is in place.

- w) **Absence of assurance that directors will continue its engagement with Company after expiry of lock in period:** Directors run the company with the accumulated finance from public and other financing source. If directors discontinue running the business, there will be negative impact on business and share price as well.

Management Perception: Our directors are involved in the business for long time and they will continue the business after expiry of lock in period.

- x) **Ability to pay any dividends in future will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditure:** Dividend payment is highly dependent on company's ability to generate profit. If company cannot earn good amount of profit from operation, it is unlikely to pay dividend.

Management Perception: The Company has been earning profit and a profitable entity. We are in belief that we will be able to pay dividend from our profit.

- y) **History of non-operation, if any and short operational history of the issuer and lack of adequate background and experience of the sponsors:** If there is any non-operation of the company, it creates negative impression. Apart from this, short operation history indicates company is gathering knowledge and expertise to be competitive in the market.

Management Perception: There was no non-operation history of the company. The company has employed experienced people to run the business under good leadership in the board.

- z) **Risks related to engagement in new type of business, if any:** If it is new business, there is risk of viability of the new business.

Management Perception: There is no as such risk as we are not engaged in any new type of business.

- aa) **Risk in investing the securities being offered with comparison to other available investment options:** If the issue price goes down after floating, there is investment risk for the potential investors.

Management Perception: Mamun Agro Products Ltd. is a profitable entity and business growth will continue in the long run. It is not risky in investing securities in comparison with other available investment option.

- bb) **Any penalty or action taken by any regulatory authorities for non-compliance with provisions of any law:** It creates a negative impression on the issuer.

Management Perception: There are no as such issues arisen in the history of our company.

- cc) **Litigations against the issuer for Tax and VAT related matters and other government claims, along with the disclosures of amount, period for which such demands or claims are outstanding, financial implications and the status of the case:** It creates a negative impression on the issuer.

Management Perception: No, we did not have any litigation relating to Tax, VAT or other government claims against of our company.

- dd) **Registered office or factory building or place of operation is not owned by the issuer:** Factory building should be owned by the company. Otherwise, there is risk of hike in factory rent in the years to come and threat of shifting the factory as well.

Management Perception: Company's registered office is at BSCIC Industrial Area, Dhamrai and its liaison office is rented.

- ee) **Lack of renewal of existing regulatory permissions/ licenses:** In this case company is not following the law to renew its all licenses.

Management Perception: There is no such issue relating to lack of existing regulatory permissions/ licenses.

- ff) **Failure in holding AGM or declaring dividend or payment of interest by any listed securities of the issuer or any of its subsidiaries or associates:** Failure in holding AGM or declaring dividend indicates the lack of compliance to the regulatory rules. Failure of payment of interest indicate the poor cash generation to the company to pay interest and debt service. The overall impression will be negative for the company.

Management Perception: There is no incident of failure in holding AGM or declaring dividend or payment of interest by the issuers.

gg) **Issuances of securities at lower than the QIO offer price within one year:** The management ultimate goal is to maximize the wealth of the company. If share price goes up, it maximizes wealth of the company. On the other hand, if share price goes down, it minimizes the wealth of the company.

Management Perception: Mamun Agro Products Ltd. has not issued securities at lower than QIO offer price within one year.

hh) **Refusal of application for qualified offer of any securities of the issuer or any of its subsidiaries or associates at any time by the Commission:** If any refusal happened in the above cases, it will create negative impression to the issuer.

Management Perception: Such cases did not happen for our company.

(ii) External risk factors may include among others:

a) **Interest Rate Risks:** When interest rate fluctuates, it causes interest risk. Companies who have debt financing are exposed to this risk highly.

Management Perception: At present government is in effort to reduce interest rate in single digit so that business can thrive. As for Mamun Agro Products Ltd., the Company has loan in small scale. Hence, the company is not vulnerable to Interest rate risk.

b) **Exchange Rate Risks:** Foreign exchange risk or currency risk is a financial risk that exists when a financial transaction is denominated in a currency other than that of the base currency of the company. This risk arises when investment's value changed due to the changes in currency exchange rates.

Management Perception: Our foreign currency reserve has been increasing over the years and at present Taka has been strengthened against Dollar. In order to make stable foreign currency rate, Bangladesh Bank always in effort to cool the foreign exchange rate so that garments and textile industries are not affected by foreign exchanges risk. As a result, all industries, who are exposed to foreign currency risk, are in stable position. Moreover, as Mamun Agro Products Ltd. imports pesticide, it is in good position because of strong Taka against Dollar.

c) **Industry Risks:** Industry risk is related with the factors affecting the company such as Raw Material, labor, demand of the product, government policy to the sector, competitor's rivalry.

Management Perception: Mamun Agro Products Ltd. is aware of the above fact. Industry risk is inherent in any kind of business. At the moment industry is favoring for operating business.

d) **Economic and Political risks:** This risk can be described as the likelihood that an investment will be affected by macroeconomic conditions such as government regulation, exchange rates, or political stability. In other words, while financing a project, the risk that the output of the project will not produce adequate revenues for covering operating costs and repaying the debt obligations. In a nutshell, economic risk refers to the risk that a venture will be economically unsustainable due to various reasons.

Management Perception: Bangladesh economy is enjoying 7% plus economic growth though it was hampered in fiscal year 2019-20 due to covid-19. Earlier, our expected economic growth by the government is over 8%. As a result, huge development work

is underway by the government. Hence, huge expensive infrastructure has been under construction that will create employment and per capita income is going up as well. As economy is expanding, so is our business viability and profitability.

Political risks: Bangladesh experienced with political unrest for over the years. Political instability hampers the smooth operation of business.

Management Perception: Nowadays calm and serene atmosphere is prevailing in our country. There is no political chaos as was at the beginning of 2014. Government is industry friendly and trying to its level best to boost up economic activities in the country.

e) **Market and Technology-related Risks;**

Market risks: Mamun Agro Products Ltd. is operating in a free market economy regime. The company might have to face stiff competition from its competitors.

Management perception: Market risk is dealt with efficiently by the experienced management.

Technology-related risks: Technology always plays a vital role for each and every type of business. Innovation of new and cost effective technology can increase productivity and reduce costs of production. On the other hand, obsolete technology may have a negative impact on the business.

Management perception: As we import, produce and formulate agro-based products, any technological changes are adapted to cope with our business. If we do not use latest technology, we will not be able to compete with our competitors.

f) **Potential or existing government regulations:** Potential or existing Govt. regulations may hamper the smooth operation of the industry.

Management perception: We are enjoying good atmosphere in operating our business. Government regulations are favorable for the company.

g) **Potential or existing changes in global or national policies:** Policies from government has a positive or negative impact on any company along with existing changes in globally.

Management perception: Nowadays global and national policies do not change without prior notice. For potential changes in policies, local and global leaders consider different issues including industries opinion. We are optimistic that if any policies change unpredictably, we can improvise with new policies without hampering our smooth operation.

h) **Statutory clearances and approvals those are yet to be received by the issuer:** Statutory clearance and approval is imperative for any business to start off. There are many statutory clearances and approvals need from the regulatory authority in order to be monitored, controlled and guided.

Management Perception: Mamun Agro Products Ltd. has been running its business for long time. The company has collected all the statutory clearance to operate the business. Hence, there are no as such risks for the Company.

- i) **Competitive condition of the business:** *Mamun Agro Products Ltd.* is operating in a free market economy. The company has to face stiff competition from its competitors.

Management Perception: *Mamun Agro Products Ltd.* has been in the market for years. The Company is doing well to be competitive with competitors. Hence, there is always check and balance existed among the rivalry companies.

- j) **Complementary and supplementary products/services which may have an impact on business of the issuer:** Complementary goods or services that are used in conjunction with another goods or services. Usually, the complementary goods have no value when consumed alone, but when combined with another good or service, it adds to the overall value of the offering. Supplementary goods are two goods that are used together. For example, if we have a car, we also need petrol to run the car. Supplementary goods have a negative cross elasticity of demand. For instance, when price of petrol goes up, demand for petrol and cars goes down.

Management Perception: *The Company has not faced any challenges relating to supplementary and complementary products and Management are concerned with the issue. In future, if necessary, management may diversify the product to be competitive over the competitors.*

- (f) If there are contracts covering any of the activities of the issuer for which the proceeds of sale of securities are to be used, such as contracts for the purchase of land or contracts for the construction of buildings, the issuer shall disclose the terms of such contracts, and copies of the contracts shall be enclosed as annexure to the prospectus;

There is no such contract yet to be engaged by the Company.

- (g) **If one of the objects of the issue is utilization of the issue proceeds for working capital, basis of estimation of working capital requirement along with the relevant assumptions, reasons for raising additional working capital substantiating the same with relevant facts and figures and also the reasons for financing short with long term investments and an item-wise break-up of last three years working capital and next two years projection;**

The basis of estimation for working capital is Percentage of Sales Method. The assumptions regarding working capital are that sales will be increasing over time. In line with increased sales, account receivables, inventory and overhead will be increased. Mamun Agro Products Ltd is a growing company. The company has a plan to expands its business through capital expenditure from its own source and it will require more working capital to support the smooth business operation.

Mamun Agro Products Ltd. does regular business and it is not a seasonal business. The company requires to maintain a significant amount of raw material, stock in process, stock in finished goods and receivable as well. As a result, the company needs to maintain a significant amount of working capital to run the business. In this regard, Management has decided to use QIO proceeds amounting to Tk. 8.44 crore for working capital.

The assumptions for these projections are as follows:

- Capacity will be increased as fixed assets will be introduced.
- Revenue will be increased for increasing of demand.
- Trade receivables will increase in line with sales.
- Inventory will increase in line with sales.
- Liabilities for expenses will increase.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the ethical requirement that are relevant to our audit of the financial statements in Bangladesh, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgments, were of most significant in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

1. Recognition of Revenue	
Ref: Note 24	
Key audit matters	How our audit address the matter
<p>Sales Revenue is recognized BDT. 159,024,548/- from seeds & BDT. 238,926,397/- from pesticide.</p> <p>Revenue recognition have significant and widespread influence over the financial statements and plays a vital role in calculating Corporate Tax. Since, revenue recognition is one of the performance indicators in almost all sector, there always exist risk of revenue smoothing or window dressing.</p>	<p>-Our procedures included, among others, obtaining an understanding of the project execution processes and relevant controls relating to the accounting for customer contracts.</p> <p>-We tested the completeness of journal entries compared to financial statements and make sure that there are no unusual items.</p>

<p>Under IFRS 15 revenue is recognized when a performance obligation is satisfied by transferring control over a promised good or service.</p>	<p>-We clearly encoded the total procedure of sales process starting from receipt of customer order to realization of revenue.</p> <p>-We tested the key controls over approval of sales order, signing off documents by appropriate personnel and input sales data into system in a complete & accurate manner.</p> <p>-On sample basis, we tested the work order proceed documents and other supporting like dispatch note, Invoice & receipt of final amount.</p> <p>-We carefully checked that, no unusual journal entries were made at the period end and also check the transactions/entries just before and after the balance sheet date to confirm cut off.</p> <p>-We also considered testing of some post balance sheet date invoices to make sure that the cut off dates are correct all reported revenues are relevant with current year.</p>

<p>The company has adopted new financial reporting standards and applied changes in its accounting policy and judgment in the preparation of financial statements for the year under audit.</p> <p>Adoption and application of new reporting standards require careful professional judgment and assumption. They have widespread impact on the preparation of the financial statements. Improper application may result in significant deviation among key performance indicators of the company.</p>	<p>-Obtained an understanding from the management regard company policy in adoption of new International Accounting & Financial Reporting Standards.</p> <p>-We reviewed the process followed by the management in adopting and implementing new standards of reporting.</p> <p>-Assesses the assumptions made while applying those standards.</p> <p>- Analyze the impact on overall financial results due to adoption of new IFRS.</p> <p>-Carried out recalculation where necessary.</p> <p>- We checked the adequacy and appropriateness of disclosure requirements.</p>

Other Information

Management is responsible for the other information. The other information comprises all of the information in the Annual report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with IFRSs and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

In accordance with the Companies Act 1994 and the Securities and Exchange Rules 1987, we also report the following:

- a) We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit and made due verification thereof;
- b) In our opinion, proper books of accounts as required by law have been kept by the Group and the Company so far as it appeared from our examination of these books;
- c) The statement of financial position and statement of profit or loss and other comprehensive income dealt with by the report are in agreement with the books of accounts and returns; and
- d) The expenditure incurred was for the purposes of the Company's business.

2.03 Accrual Basis

These financial statements have been prepared on an accrual basis of accounting, except for cash flow information. The items of assets, liabilities, equity, income and expenses (the elements of financial statements) have been recognized when they satisfy the definitions and recognition criteria applicable for these elements as mentioned in the Framework

2.04 Components of the Financial Statements

According to IAS 1 Presentation of Financial Statements the complete set of financial statement includes the following components: -

- a) Statement of financial position as at 31 March, 2021.
- b) Statement of profit or loss and other comprehensive income for the period ended 31 March, 2021.
- c) Statement of changes in equity for the period ended 31 March, 2021.
- d) Statement of cash flows for the period ended 31 March, 2021, and
- e) Notes, comprising of significant accounting policy and other explanatory information.

2.05 Use of Estimates and Judgments

The preparation of financial statements in conformity with IFRSs requires management to make judgments, estimates, and assumptions that affect the application of policies and reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported amounts of income and expense. The estimates and underlying assumptions are based on historical experience and other factors that are believed to be reasonable under the circumstances. The estimates and underlying assumptions are reviewed on an ongoing basis.

Changes in Accounting Policy and Estimate

IFRS 16 Leases

An entity shall assess a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. In line with IFRS-16 Leases, an entity shall determine the lease term as the non-cancellable period of a lease together with both:

- I. Period covered by the option to extend the lease and;
- II. Period covered by the option to terminate the lease.

Initial measurement of right of use asset shall be measured at cost and subsequently either by fair value or follow revaluation model.

The entity has adopted IFRS 16 from 01 July, 2019 and has been reviewed office rent agreement in light of the new rules in IFRS 16. The presentation is being given following modified retrospective approach.

On adoption of IFRS 16 the entity recognizes a right-of-use asset and a lease liability. The lease liability is measured at the present value of the lease payments that are not paid at date of 01 July, 2019 discounted using the incremental borrowing rate. Subsequently, right-of-use asset is adjusted for depreciation and lease liability is adjusted for interest and lease payments. The lease payment are split into a principal and interest portion which are both presented in the statement of cash flows. Depreciation has been charged on right-of use assets on straight line basis during the lease period. Incremental borrowing rate is @ 12%. (See note 5 & 17).

IFRS 9 Financial Instruments

At initial recognition as per IFRS-9 Financial Instrument, an entity shall measure a financial asset or financial liability as its fair value plus or minus (in the case of a financial asset or a financial liability not at fair value through profit or loss) the transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability.

After initial recognition (subsequent measurement) an entity shall measure a financial asset or financial liability in either of the following subject to specific circumstance specified in the standard (sec 4.1.1- 4.1.5) & (4.2.1-4.2.2):

- i. amortized cost;
- ii. fair value through other comprehensive income;
- iii. fair value through profit or loss.

The entity shall recognize loss allowance or Expected Credit Loss (impairment requirement). At each reporting date the entity account for the impairment of financial assets or financial liability in the following manner:

- I. an amount equal to the lifetime expected credit loss (if the credit risk of the instrument has increased significantly since initial recognition)
- II. an amount equal to the 12 (twelve) month expected credit loss (if the credit risk of the instrument has not increased significantly since initial recognition)

The company did not carry out an impairment review because in spite of COVID-19 pandemic the production facility was in operation and the management assumed financial instrument as good.

2.06 Responsibility for Preparation and Presentation of Financial Statements

The Board of Directors is responsible for the preparation of financial statements under section 183 of the Companies Act, 1994 and in accordance with an applicable financial reporting framework.

2.07 Statement of Cash Flows

Statement of Cash Flows has been prepared in accordance with IAS 7 Statement of Cash Flows and the cash flows from the operating activities have been presented under direct method considering the provisions of Paragraph 19 of IAS 7 which provides that "Entities are encouraged to report cash flows from operating activities using the direct method" and as per requirement of the Securities and Exchange Rules, 1987.

As per Bangladesh Securities and Exchange Commission Notification No. BSEC/CMRRCD/2006/158 /208/Admin/81 dated 08 August 2018, Cash Flows from operating activities have been reconciled with net income using the indirect method.

2.09 Property, Plant and Equipment (PPE)

a) Recognition and measurement

The cost of an item of property, plant and equipment is recognized as an asset if, and only if: it is probable that future economic benefits will flow to the entity; and the cost of the item can be measured reliably.

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses, if any.

All Property, Plant and Equipment are stated at cost less accumulated depreciation as per IAS 16 Property, Plant and Equipment. The cost of acquisition of an asset comprises of its purchase price and any directly attributable cost of bringing the asset to its working condition for its intended use inclusive of inward freight, duties and non-refundable taxes.

b) Subsequent cost

The cost of replacing or upgradation of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the item will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced component is derecognized. The costs of the day to day servicing of property, plant and equipment are recognized in profit or loss as incurred.

c) Depreciation

Depreciation on Property, Plant and Equipment other than Land and Land development and capital work-in-progress has been computed during the period using the reducing balance method. Depreciation has been charged on addition when the related Property, Plant and Equipment are available for use as per management intention. Depreciation has charged as following rate.

Name of Assets	Rate	Rate
	2021	2020
Land & Land Development	0%	0%
Factory Building & Civil Construction	2.5%	2.5%
Plant & Machinery	5%	5%
Office Equipment & Decoration	10%	10%
Vehicles	10%	10%
Lease vehicles	10%	10%
Furniture and Fixture	10%	10%
Generator	10%	10%

d) Capital work-in-progress

Capital work-in-progress represents the cost incurred for acquisition and/or construction of items of property, plant and equipment these are stated at cost. The items of capital work in progress are recognized when risks and rewards associated with such assets are transferred to the company.

e) Capitalization of borrowing costs

Borrowing costs that are directly attributable to acquisition, construction or production of a qualifying asset included in the cost of those assets in compliance with IAS 23 Borrowing Costs. However, capitalization of borrowing costs is ceased when acquisition of relevant asset is completed. In this period no borrowing costs have been capitalized.

f) Retirement and disposals:

On retirement or otherwise disposal of fixed assets, the cost and accumulated depreciation are eliminated and any gain or loss on such disposal is reflected in the statement of profit or loss and other comprehensive income, which is determined with reference to the net book value of the assets and the net sales proceeds. Depreciation has been charged on disposal assets up to the date of disposal. There is no such retirement on disposals of assets during the period.

g) Impairment:

The carrying amounts of all assets are reviewed at each balance sheet date to determine whether there is any indication of impairment loss. If any such indication exists, recoverable amount is estimated in order to determine the extent of the impairment loss.

For impairment test, management have considered all indicators (external and internal) and assessed that any asset mentioning in the (1) property, plant and equipment and (2) intangible assets:

1. Have not declined in market value;
2. The market interest rate have not increased;
3. No technological change has occurred;
4. No physical damage has occurred;
5. No asset become obsolescence; and
6. No asset become idle.

After considering the above indications, management have concluded that carrying amount of any asset did not exceed the market value of assets or value in use and that is why no impairment loss was recognized in the accounts.

2.10 Intangible Assets

a) Recognition and measurement

Intangible assets that are acquired by the Company and have finite useful life are measured at cost less accumulated amortization and accumulated impairment loss, if any. Intangible assets are recognized as an asset if, and only if: it is probable that expected future economic benefits that are attributable to the asset will flow to the Company; and the cost of the item can be measured reliably. The cost of an intangible asset comprises its purchase price, import duties and non-refundable taxes and any directly attributable cost of preparing the asset for its intended use.

b) Subsequent cost

Subsequent expenditure on intangible assets is capitalized only if it is probable that it will increase the future economic benefits associated with the specific asset.

c) Derecognition

Intangible assets are derecognized from the statement of financial position on disposal or when no future economic benefits are expected from their use or disposal. The gain or loss arising from the de recognition of an intangible asset is recognized in profit or loss at the time of de recognition.

d) Amortization

Intangible assets are amortized on straight line method from the date when asset is available for use over its estimated useful life. The amount of amortization has been presented under the Statement of Profit or Loss and Other Compressive Income.

Rate of amortization on software is as under:

Items	31 March, 2021	30 June, 2020
Software	10%	10%

2.11 Borrowing Costs

As per the requirements of IAS 23 Borrowing Costs the borrowing costs that are directly attributable to the acquisition/construction of plant and machinery and civil construction are capitalized. All other borrowing costs are recognized in profit or loss in the period in which they are incurred. No borrowing costs are capitalized during the period.

2.12 Revenue Recognition

In compliance with the requirements of IFRS-15 "Revenue from Contracts with Customers", an entity shall account for a contract with a customer only when all of the following criteria are met:

- a) The parties to the contract have approved the contract (in writing, orally or in accordance with other customary business practices) and are committed to perform their respective obligations;
- b) The entity can identify each party's right regarding the goods or services to be transferred;
- c) The entity can identify the payment terms for the goods or service to be transferred;
- d) The contract has commercial substance (i.e. the risk, timing or amount of the entity's future cash flows is expected to change as a result of the contract); and
- e) It is probable that the entity will collect the consideration to which it will be entitled in exchange for the goods or service that will be transferred to the customer.

Considering the five steps model, the Company recognizes revenue at the time of delivery when (or as) the Company satisfies a performance obligation by transferring a promised good to a customer. Goods are considered as transferred when (or as) the customer obtains control of those goods. Revenue from sale of goods is measured at the fair value of the consideration received or receivable net of returns and allowances, trade discounts, rebates and Value Added Tax (VAT).

2.13. Other Income:

Other income derived from sales of wastage and foreign Exchange gain/Loss.

2.14 Inventories

In compliance with the requirements of IAS 2 Inventories, the inventories have been valued at lower of cost or net realizable and consistent with the previous year's practice. Net realizable value is based on estimated selling price in the ordinary course of business less any further cost expected to be incurred to make the sale.

2.15 Impairment

a) Financial assets

The company considers evidence of impairment for financial assets at both a specific asset and collective asset level at each reporting date. Financial assets are impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably.

Objective evidence that financial assets are impaired can include default or delinquency by a debtor, indications that a debtor will enter bankruptcy, etc. accordingly, 100% provision is made over the amount outstanding.

b) Non-financial assets

The carrying amounts of the company's non-financial assets (tangible and intangible) are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated in order to determine the extent of impairment loss (if any).

Impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

2.16 Provisions, accruals and contingencies

a) Provisions

Provisions are recognized in the financial statements in line with the International Accounting Standards IAS 37 Provisions, Contingent liabilities and Contingent Assets, when:

- a) The company has a present obligation (legal or constructive) as a result of a past events;
- b) It is probable (i.e. more likely than not) that an outflow of resources embodying economic benefits will be required to settle the obligations; and
- c) A reliable estimate can be made of the amount of the obligation.

b) Accruals

Accruals are liabilities to pay for goods or services that have been received or supplied but have not been paid, invoiced or formally agreed with the supplier, including amount due to employees.

c) Contingencies

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company; or a present obligation that arises from past events but is not recognized because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or the amount of the obligation cannot be measured with sufficient reliability.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company.

2.17 Employees benefit

The company maintains Short Term Employee Benefits as per IAS 19 Employee Benefits. The cost of employee benefit is charged of as revenue expenditure in the period to which the contributions relate.

Short term employee benefits

Workers Profit Participation Fund (WPPF):

The company has created a fund for workers "Workers Profit Participation Fund (WPPF)" as per Bangladesh Labour Act, 2006 (Amended up to 2018) by 5% of profit before tax but after charging such expenses.

2.18 Advances, deposits and prepayments

Advances are initially measured at cost. After initial recognition advances are carried at cost less deduction/ adjustment/ transfer to respective account heads such as property, plant and equipment, inventory or expenses.

Deposits and prepayments are measured at payment value.

2.19 Segment Reporting

The company has two product lines: (i) Seeds and (ii) Pesticides. The chief operating decision maker of the company, together with other senior management personnel, reviewed the financial information of the products such as revenue, expenses and allocation of resources. Except revenue and expenses, no discrete financial information is available for segment reporting as per IFRS 8 Operating Segments. Hence, management has presents revenue and expenses of the two products separately.

2.20 Functional and Presentational Currency.

These financial statements are presented in Bangladesh Taka which is both functional currency and presentation currency of the Company. The amounts in these financial statements have been rounded off to the nearest Taka.

2.21 Income Tax

Income tax expense comprises of current and deferred tax. Income tax expense is recognized in the Statement of Profit or Loss and Other Comprehensive Income and accounted in accordance with the requirements of IAS 12 Income Taxes.

Current Tax

Current tax is the expected tax payable on the taxable income for the period, using tax rates enacted or subsequently enacted after the reporting date and any adjustment to tax payable in respect of previous years. Provision for taxation is calculated on the basis of applicable current tax rate in compliance with Finance Act, 2020. For Seeds, current tax has been calculated as per SRO No. 199/2015, Income Tax Ordinance, 1984 (Ordinance NO. XXXVI of 1984) Sec 44 and sub-section (4) clause (b),

- i) The slab rate -

Amount of Income	Tax Rate
1 st Tk. 10,00,000	3%
Next Tk.20,00,000	10%
Remaining balance	15%

- ii) Current tax has been calculated on Pesticide @ 32.5% as per Finance Act, 2020.

Deferred Tax

Deferred tax is recognized in compliance with IAS 12 Income Taxes, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purpose and amounts used for taxation purpose. Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the date of statement of financial position. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity.

VAT

As per S.R.O No. 144-AIN/2020/105-VAT, Under VAT and Supplementary Act. 2012 dated 11 June, 2020 Under Table: 02 Heading No; 38.08 the Company is Exempted for VAT.

2.22 Earnings per share

The company calculates Earnings per Share (EPS) in accordance with (1) IAS 33 Earnings per Share and (2) Financial Reporting Council (FRC) gazette notification, which has been shown on the face of the Profit or Loss and Other Comprehensive Income.

Basic Earnings per Share

This has been calculated in compliance with the requirements of IAS 33 Earnings per Share by dividing the basic earnings attributable to the ordinary shareholders by the weighted average number of ordinary shares outstanding during the period.

Diluted Earnings per Share

No diluted earnings per share are required for the period since there is no scope of dilution of share during the period under review.

2.23 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset to one entity and a financial liability or equity instrument to another entity as per IFRS 9 Financial Instruments.

Financial assets:

Financial assets of the company include cash and cash equivalents, equity instrument to another entity, Trade receivables. The company initially recognizes a financial asset in its statement of financial position when, and only when, the company becomes a party to the contractual provision of the instrument. The company derecognize a financial asset when, and only when; the contractual rights to the cash flows from the financial asset expire or transfer the contractual rights to receive the cash flows of the financial asset.

Financial liabilities:

The company initially recognizes a financial liability in its statement of financial position when, and only when, the company becomes a party to the contractual provision of the instrument. The company derecognizes a financial liability from its statement of financial position when, and only when, it is extinguished, that is when the obligation specified in the contract is discharged or cancelled or expires.

2.24 Cash and cash equivalents

Cash and cash equivalents include cash in hand, in transit and with banks on current and deposit accounts which are held and available for use by the company without any restriction. There is insignificant risk of change in value of the same.

2.25 Trade Receivables:

The amount of receivable is lying with various party of the company. Trade receivables have been stated at their nominal value. Trade receivables are accrued in the ordinary course of business. The amounts of trade receivable are secured by debtor's personal security and considered good. Therefore, no provision was made for bad debt during the period. No amount was due by the Directors (including Managing Director) or any other official of the company.

2.26 Foreign Currency transaction:

Foreign currency transactions are recorded at the applicable rates of exchange ruling at the transaction date.

The monetary assets and liabilities, if any, denominated in foreign currencies at the financial position date are translated at the applicable rates of exchanges ruling at that date. Exchange differences are charged off as revenue expenditure in compliance with the provisions of IAS 21 The Effects of Changes in Foreign Exchange Rates.

2.27 Authorization date for issuing financial statements

The financial statements were authorized by the Board of Directors on May 19, 2021.

2.28 Comparative information

Comparative information has been disclosed in respect of previous period for all numeric information in the financial statements and also the narrative and descriptive information where it is relevant for understanding of the current period's financial statements.

2.29 Related Party Disclosures

The company carried out a number of transactions with related parties in the normal course of business and on arms' length basis. The information as required by IAS 24 Related Party Disclosures, related party transactions are disclosed in notes to the Financial Statements.

2.30 Events after the Reporting Period

Events after the reporting period are those events, favorable and unfavorable, that occur between the end of the reporting period and the date when the financial statements are authorized for issue. Two types of events can be identified:

Adjusting Events - those that provide evidence of conditions that existed at the end of the reporting period.

None adjusting Events- those that are indicative of conditions that arose after the reporting period.

Management has taken close look whether any events after the reporting period exist that need to take into account during the preparation of financial reports. No event after the reporting period exists and management has prepared the financial reports in accordance.

2.31 Measurement of Fair Values:

When measuring the fair value of an asset or a liability, the company uses market observable data as far as possible. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- a) Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- b) Level 2: inputs other than quoted prices included in level 1 that are observable for asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- c) Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability might be categorized in different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

2.32 Risk Management

According to IFRS 7 Financial Instruments: Disclosures, an entity shall disclose information that enables users of its financial statements to evaluate the nature and extent of risks arising from financial instruments to which the entity is exposed at the end of the reporting period. The Management of the company are reviewed risk management policies, procedures and systems regularly to reflect changes in market conditions and the Company's activities. The Company has exposure to the following risk for its use of financial instruments. Credit risk, Liquidity risk and Market risk.

Credit risk:

Credit risk is the risk of a financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. Credit risk mainly arises from trade receivables, interest receivables, advances and prepayments and cash at bank.

Management has a credit policy in place and the exposure to credit risk is monitored on an ongoing basis.

Liquidity risk:

Liquidity risk is the risk that the Company will encounter difficulties in meeting the obligation associated with its financial liabilities that are settled by delivering cash or other financial asset. The company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under normal and stressed conditions, without incurring unacceptable losses or risking damage to the company's reputation.

The company's aim to maintain the level of its cash and cash equivalents at amounts in excess of expected cash outflows on financial liabilities. The company also monitors the level of expected cash inflows on trade receivables together with expected cash outflows on trade and other payables.

Market risk:

Market risk is the risk that any change in market prices, such as foreign exchange rates and interest rates will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

The Company is exposed to currency risk as most of the capital goods, machineries to be imported from outside Bangladesh, and will be invoiced in foreign currency.

2.33 Implications of COVID-19 on our business:

The COVID-19 pandemic has developed rapidly in 2020. The resulting impact of the virus on the operations and measures taken by Bangladesh Government to contain the virus has negatively affected the group's results in the reporting period.

COVID-19 is not expected to have a significant impact on the entity. Management has determined that there is no material uncertainty that casts doubt on the entity's ability to continue as a going concern. It expects that COVID-19 might have some impact, though not significant, for example, in relation to expected future performance, or the effects on some future asset valuations.

There was no significant difficulties in meeting loan covenants based on the aroused COVID-19 situation and the company managed to meet all obligations for the reporting period.
